Under the terms of the Trust Deed, the Trustee holds the benefit of this covenant on trust for itself and the Securityholders according to their respective interests.
 - (ii) Subject to Condition 6(g)(iii) (*Enforcement of Security Constituted Under the Swap Pledge Agreement*) and save for any moneys received in connection with the realisation or enforcement

of all or part of the Security, all moneys received by or on behalf of the Trustee will, despite any appropriation of all or part of them by the Issuer, be held by the Trustee on trust to apply them, subject to Condition 6(k) (*Accumulation of Moneys*):

- (A) first, in payment or satisfaction of the fees, costs, charges and expenses properly incurred and losses and liabilities incurred by or payable to the Trustee and the Security Trustee under or pursuant to the Transaction Documents in respect of this Series of ETP Securities (including, without limitation, any Taxes (other than any income, corporation or similar tax in respect of the Trustee's and the Security Trustee's remuneration) required to be paid by the Trustee or the Security Trustee in connection with the performance of its obligations under the Transaction Documents in respect of this Series of ETP Securities and the Trustee's or the Security Trustee's remuneration);
- (B) secondly, in payment or satisfaction of the fees, costs, charges and expenses properly incurred and losses and liabilities incurred by or payable to the Agents under or pursuant to the Transaction Documents in respect of this series of ETP Securities;
- (C) thirdly, in payment of any amounts owing to the holders of ETP Securities *pari passu* and rateably; and
- (D) fourthly, in payment of any balance to the Issuer for itself.

If the Trustee holds any moneys in respect of ETP Securities that have become void or in respect of which claims have become prescribed, the Trustee will hold them on the trusts described above.

(f) **Application of Proceeds of Enforcement of Security**

Pursuant to the terms of the Security Deed, subject to Condition 6(g)(ii) (*Enforcement of Security Constituted Under the Swap Pledge Agreement*) and Condition 6(k) (*Accumulation of Moneys*), the Security Trustee will apply the proceeds derived from the realisation of the Secured Property (whether by way of liquidation or enforcement and after taking account of (x) any Taxes incurred, withheld or deducted by or on behalf of the Issuer and (y) any amounts which the Liquidation Agent is permitted to deduct from the proceeds of the realisation of the Posted Collateral in accordance with Condition 6(g) (*Enforcement of Security Constituted Under the Swap Pledge Agreement*) properly incurred by the Liquidation Agent prior to the enforcement of the Security by the Security Trustee (which shall have been certified (including the amounts due to the Liquidation Agent) by the Issuer and the Liquidation Agent to the Security Trustee which certificate shall be conclusive and binding)) as follows:

- (i) first, in payment or satisfaction of all fees, costs, charges and expenses properly incurred and losses, liabilities and other amounts incurred by or payable to the Security Trustee, the Trustee in respect of each Series of ETP Securities or any receiver under or pursuant to the Security Deed and/or the Trust Deed in respect of each Series of ETP Securities and/or any other Transaction Document in respect of each Series of ETP Securities (which for the purpose of this Condition 6(f) (*Application of Proceeds of Enforcement of Security*) and the Security Deed shall include, without limitation, (I) any Taxes required to be paid by the Security Trustee or the Trustee in respect of each Series of ETP Securities in connection with the performance of their respective obligations under the Trust Deed in respect of each Series of ETP Securities and/or the Security Deed and/or any other Transaction Document relating to any Series of ETP Securities (other than any income, corporation or similar tax in respect of the remuneration of the Security Trustee or the Trustee in respect of each Series of ETP Securities), (II) the costs of enforcing or realising all or some of the Security and (III) the remuneration of the Security Trustee and the Trustee in respect of each Series of ETP Securities);

- (ii) secondly, in payment of any amounts owing to the Issuing and Paying Agent for reimbursement in respect of proper payment of Redemption Amounts and default interest (if any) made to the relevant holders of ETP Securities in respect of each Series of ETP Securities;
- (iii) thirdly, on a *pari passu* basis, in payment of any fees, expenses or other amounts due to (I) the Issuing and Paying Agent and any other Paying Agent(s) pursuant to the Agency Agreement in respect of each Series of ETP Securities, (II) the Liquidation Agent pursuant to the agreement under which the Liquidation Agent (if any) is appointed and (III) any account bank or custodian of the Issuer in connection with any purchase and cancellation of ETP Securities for each Series under such account bank or custodian's contract of appointment with the Issuer;
- (iv) fourthly, in payment of any amounts owing to the Securityholders in respect of each Series of ETP Securities *pari passu* and rateably;
- (v) fifthly, in payment of any amounts owing to the Swap Counterparty under the Swap Agreement; and
- (vi) sixthly, in payment of the balance (if any) to the Issuer.

(g) **Enforcement of Security Constituted Under the Swap Pledge Agreement**

- (i) The security under the Swap Pledge Agreement will become enforceable if (I) a Swap Early Termination Date has been designated or deemed to be designated pursuant to the Swap Agreement in respect of all Swap Transactions thereunder and the Swap Counterparty has not paid in full the amount payable under the Swap Agreement when due or (II) the Swap Counterparty has failed (or has failed to cause the Swap Collateral Custodian) to make, when due, any transfer of Eligible Collateral required to be made by it or the Swap Collateral Custodian to the Swap Collateral Accounts in accordance with the terms of the Account Control Agreement and that failure continues for two London and Paris Business Days after notice of that failure is given by (or on behalf of) the Issuer to the Swap Counterparty and the Swap Collateral Custodian in accordance with the terms of the Swap Pledge Agreement. If the security under the Swap Pledge Agreement becomes enforceable, the Issuer shall use reasonable endeavours to appoint a Liquidation Agent as soon as is reasonably practicable (and provided always that the Issuer shall not be liable for any non-appointment of any Liquidation Agent or for any losses, damages, costs or expenses that result from any such non-appointment) to assist the Issuer in the enforcement of the security granted under the Swap Pledge Agreement. The Liquidation Agent shall be appointed as agent of the Issuer to realise the Posted Collateral under the Swap Pledge Agreement in a timely fashion in accordance with the terms of the Swap Pledge Agreement, the Account Control Agreement and applicable laws, until such time as the Security constituted under the Security Deed has become enforceable and the Security Trustee notifies the Liquidation Agent that it is enforcing such Security and to cease its activities in relation thereto.

In appointing a Liquidation Agent, the Issuer shall act in good faith and shall seek to appoint a Liquidation Agent of good professional standing, having appropriate relevant experience and charging fees that are no higher than is commercially reasonable. The Issuer is under no obligation to obtain more than one quotation for such role and, where there is more than one candidate, may choose the entity it considers best suited to the role, regardless of whether other potential candidates would have charged lower fees. At any time after the security granted pursuant to the Swap Pledge Agreement has become enforceable, the Issuer (or its agent) may authorise and direct the Swap Collateral Custodian to deliver the Posted Collateral held by it to, or to the order of, the Liquidation Agent. Pursuant to the terms of the Security Deed, the Security described in Condition 6(a) (*The Security*) shall automatically be released without further action on the part of

the Security Trustee to the extent necessary to effect the enforcement of the security granted under the Swap Pledge Agreement and the realisation of the Posted Collateral; provided that, for the avoidance of doubt, nothing in this Condition 6(g) (*Enforcement of Security Constituted Under the Swap Pledge Agreement*) shall operate to release the charges and other security interests over the proceeds of the enforcement of the security under the Swap Pledge Agreement and the realisation of the Posted Collateral.

In realising the Posted Collateral, the Liquidation Agent may take such steps as it considers appropriate in order to effect an orderly realisation in a timely fashion (so far as is practicable in the circumstances), and may effect such realisation at any time or from time to time and may do so in one transaction or in multiple transactions. The Liquidation Agent will not be liable to the Issuer or to the Security Trustee, the Securityholders or any other person merely because a higher price could have been obtained had all or part of the realisation been delayed or taken place at a different time or had the realisation not been effected in stages.

The Liquidation Agent shall be permitted to deduct its remuneration and any Taxes, fees, costs, charges and expenses arising from or connected with the realisation of the Posted Collateral and the enforcement of the security under the Swap Pledge Agreement from the proceeds of any realisation of the Posted Collateral. The Liquidation Agent shall not be liable (x) to account for anything except the actual proceeds of any realisation received by it (after deduction of the amounts (if any) described above) or (y) for any Taxes, fees, costs, charges, losses, damages, liabilities or expenses arising from or connected with any realisation or from any act or omission in relation to any realisation or otherwise unless such Taxes, fees, costs, charges, losses, damages, liabilities or expenses were caused by its own negligence, wilful default or fraud.

Subject as provided above, in carrying out any realisation, the Liquidation Agent (I) will act in good faith and will sell at a price which it reasonably believes to be representative of the price available in the market for the sale of the relevant amount of Posted Collateral being disposed of in the relevant transaction and (II) may sell to itself, or any Affiliate of it, provided that the Liquidation Agent shall sell at a price which it believes to be a fair market price.

- (ii) Prior to the enforcement of the Security constituted under the Security Deed, the Issuer (or its agent) shall, subject to Condition 6(g)(iii) (*Enforcement of Security Constituted Under the Swap Pledge Agreement*), apply the proceeds of the enforcement of the security constituted under the Swap Pledge Agreement after taking account of (x) any Taxes incurred, withheld or deducted by or on behalf of the Issuer and (y) any amounts which the Liquidation Agent is permitted to deduct from the proceeds of the realisation of the Secured Property in accordance with this Condition 6(g) (*Enforcement of Security Constituted Under the Swap Pledge Agreement*), as follows:
 - (A) first, in payment or satisfaction of all Taxes, fees, costs, charges and expenses properly incurred and losses and liabilities and other amounts incurred by or payable to the Liquidation Agent (which for the purpose of this Condition 6(g) (*Enforcement of Security Constituted Under the Swap Pledge Agreement*) shall include, without limitation, (I) any Taxes (other than any income, corporation or similar tax in respect of the Liquidation Agent's remuneration) required to be paid by the Liquidation Agent in connection with the performance of its obligations under these Conditions and/or by the Liquidation Agent on behalf of the Issuer in connection with the realisation of any Posted Collateral, (II) the costs and expenses of the Liquidation Agent in enforcing and/or realising the security under the Swap Pledge Agreement and (III) the Liquidation Agent's remuneration);
 - (B) secondly, in payment or satisfaction of all fees, costs, charges and expenses properly incurred and losses and liabilities and other amounts incurred by or payable to the Security Trustee, the Trustee in respect of each Series of ETP Securities or any receiver under or

pursuant to the Security Deed and/or the Trust Deed in respect of each Series of ETP Securities and/or any other Transaction Document in respect of each Series of ETP Securities (which for the purpose of this Condition 6(g) (*Enforcement of Security Constituted Under the Swap Pledge Agreement*) shall include, without limitation, (I) any Taxes required to be paid by the Security Trustee or the Trustee in connection with the performance of their respective obligations under the Trust Deed in respect of each Series of ETP Securities and/or the Security Deed and/or any other Transaction Document relating to any Series of ETP Securities (other than any income, corporation or similar tax in respect of the remuneration of the Security Trustee or the Trustee in respect of each Series of ETP Securities) and (II) the remuneration of the Security Trustee or the Trustee in respect of each Series of ETP Securities);

- (C) thirdly, in payment of any amounts owing to the Issuing and Paying Agent for reimbursement in respect of proper payment of Redemption Amounts and default interest (if any) made to the relevant holders of ETP Securities in respect of each Series of ETP Securities;
 - (D) fourthly, on a *pari passu* basis, in payment of any fees, expenses or other amounts due to the Issuing and Paying Agent and any other Paying Agent(s) pursuant to the Agency Agreement in respect of each Series of ETP Securities;
 - (E) fifthly, in payment of any amounts owing to the Securityholders in respect of each Series of ETP Securities *pari passu* and rateably;
 - (F) sixthly, in payment of any other amounts owing to the Swap Counterparty under the Swap Agreement; and
 - (G) seventhly, in payment of the balance (if any) to the Issuer.
- (iii) Pursuant to the terms of the Swap Pledge Agreement, the Issuer (or any relevant Agent of the Issuer) will transfer to the Swap Counterparty any proceeds and Posted Collateral remaining after the enforcement of the security granted in favour of the Issuer under the Swap Pledge Agreement and the liquidation of the Posted Collateral and application of the proceeds of such liquidation by (or on behalf of) the Issuer under the Swap Pledge Agreement in satisfaction in full of the amount(s) due and payable by the Swap Counterparty to the Issuer under the Swap Agreement, the Swap Pledge Agreement and the Account Control Agreement (such remaining proceeds and Posted Collateral, the “**Excess Credit Support Property**”). The Excess Credit Support Property shall, at all times, be and remain the property of the Swap Counterparty and shall not be subject to or form part of the property to be distributed in accordance with the orders of priority in this Condition 6 (*Security*).

(h) **Enforcement of Security Constituted Under the Security Deed**

The Security over the Secured Property shall become enforceable pursuant to the Security Deed if payment of the Redemption Amount in respect of the ETP Securities of any Series of ETP Securities is not made when due on the Scheduled Maturity Date or the relevant Early Redemption Date (as applicable) of such Series of ETP Securities and such payment default continues for more than 14 days.

(i) **Realisation of Security**

At any time after the Security has become enforceable, the Security Trustee may, at its discretion, and shall, if so directed in writing by holders of at least one-fifth in number of the ETP Securities of all Series of ETP Securities then outstanding or by a Securityholders’ Resolution, in each case subject to it having been indemnified and/or secured and/or pre-funded to its satisfaction by the Securityholders, enforce the Security constituted under the Security Deed. The Security Trustee shall not be required to take any

action in relation to the enforcement of the Security without first being indemnified and/or secured and/or pre-funded to its satisfaction.

(j) **Realisation of English Law Security**

- (i) **Security Trustee taking possession of English Law Secured Property:** To enforce the English Law Security the Security Trustee may, at its discretion, (i) enforce, terminate and/or realise any Transaction Document (other than the Swap Pledge Agreement and the Account Control Agreement) relating to any Series of ETP Securities in accordance with its or their terms, and/or take action against any Obligor(s) with respect to the English Law Secured Property and/or (ii) take possession of and/or realise all or part of the English Law Secured Property over which the English Law Security shall have become enforceable and may in its discretion, sell, call in, collect and convert into money all or part of the English Law Secured Property, in such manner and on such terms as it thinks fit, in each case without any liability as to the consequence of such action and without having regard to the effect of such action on individual Securityholders of any Series of ETP Securities and the Security Trustee will not be obliged or required to take any action or step unless pre-funded and/or secured and/or indemnified to its satisfaction.
- (ii) **Appointment of receiver:** The Security Trustee may, in writing, appoint a receiver of all or part of the English Law Secured Property over which any English Law Security shall have become enforceable and may remove any receiver so appointed and appoint another in its place. No delay or waiver of the right to exercise these powers shall prejudice their future exercise. Any such receiver so appointed shall be the Issuer's agent for all purposes. The Issuer alone shall be responsible for the acts, omissions, defaults or misconduct of any receiver appointed by the Security Trustee.

(k) **Realisation of Belgian Law Security**

To enforce the Belgian Law Security the Security Trustee may, at its discretion, enforce the Belgian Law Security in respect of the Belgian Law Secured Property and apply the received amounts towards satisfaction of the Secured Issuer Obligations without any liability as to the consequence of such action and without having regard to the effect of such action on individual Securityholders of any Series of ETP Securities and the Security Trustee shall not be obliged or required to take any action or step unless pre-funded and/or secured and/or indemnified to its satisfaction.

(l) **Liability of Security Trustee, receiver, attorneys or agents**

Neither the Security Trustee nor any receiver appointed by it or any attorney or agent of the Security Trustee will, by reason of taking possession of any Secured Property or any other reason and whether or not as mortgagee in possession, be liable to account for anything except actual receipts or be liable for any loss or damage arising from the realisation of such Secured Property or from any act or omission to such Secured Property or otherwise unless such loss or damage shall be caused by its own negligence, wilful default or fraud. Nothing shall oblige the Security Trustee, nor shall it have any duty, to become a mortgagee in possession.

(m) **Accumulation of Moneys**

If the amount of the moneys at any time available to the Trustee for payment of Redemption Amounts in respect of the ETP Securities in accordance with Condition 6(e) (*Money Received by the Trustee Prior to Enforcement of Security*) is less than 10 per cent. of the aggregated Early Redemption Amount or Final Redemption Amount of all ETP Securities outstanding as determined on the Early Redemption Valuation Date or Final Redemption Valuation Date, as applicable (the "**Pre-enforcement Minimum Accumulated Amount**"), the Trustee shall not be obliged to make any payments in accordance with Condition 6(e) (*Money Received by the Trustee Prior to Enforcement of Security*) and shall place the same on deposit into a non-interest bearing account (and, for the avoidance of doubt, the Trustee shall

not be required to exercise any form of investment discretion with respect to such deposits) in the name or under the control of the Trustee at such bank or financial institution and in such currency as the Trustee may think fit. The Trustee shall accumulate such moneys until the accumulations, together with any other funds for the time being under its control and available for such payment, amount to at least the Pre-enforcement Minimum Accumulated Amount and then such accumulations and funds (after deduction of, or provision for, any applicable Taxes) shall be applied as specified in Condition 6(e) (*Money Received by the Trustee Prior to Enforcement of Security*).

If the amount of the moneys at any time available to the Security Trustee for payment of Redemption Amounts in respect of each Series of ETP Securities in accordance with Condition 6(f) (*Application of Proceeds of Enforcement of Security*) is less than 10 per cent. of the aggregated Early Redemption Amount or Final Redemption Amount of all ETP Securities of each Series of ETP Securities outstanding as determined on the Early Redemption Valuation Date or Final Redemption Valuation Date, as applicable, of each Series of ETP Securities (the “**Post-enforcement Minimum Accumulated Amount**”), the Security Trustee shall not be obliged to make any payments in accordance with Condition 6(f) (*Application of Proceeds of Enforcement of Security*) and shall place the same on deposit into a non-interest bearing account (and, for the avoidance of doubt, the Security Trustee shall not be required to exercise any form of investment discretion with respect to such deposits) in the name or under the control of the Security Trustee at such bank or financial institution and in such currency as the Security Trustee may think fit. The Security Trustee shall accumulate such moneys until the accumulations, together with any other funds for the time being under its control and available for such payment, amount to at least the Post-enforcement Minimum Accumulated Amount and then such accumulations and funds (after deduction of, or provision for, any applicable Taxes) shall be applied as specified in Condition 6(f) (*Application of Proceeds of Enforcement of Security*).

(n) **Limited Recourse and Non-Petition**

- (i) Other than following the occurrence of a Minimum Redemption Amount Shortfall Event, notwithstanding anything in the Transaction Documents to the contrary, the Transaction Parties and Securityholders in respect of each Series of ETP Securities shall have recourse only to the Secured Property, subject always to the Security, and not to any other assets of the Issuer. If, following realisation in full of the Secured Property (whether by way of liquidation or enforcement) and application of available cash sums as provided in this Condition 6 (*Security*), the Trust Deed and the Security Deed, as applicable, any outstanding claim against the Issuer in respect of the Secured Issuer Obligations remains unpaid, then such outstanding claim shall be extinguished and no debt shall be owed by the Issuer in respect thereof. Following the extinguishment of any such claim in accordance with this Condition 6(n) (*Limited Recourse and Non-Petition*), none of the Transaction Parties in respect of any Series of ETP Securities, the Securityholders in respect of any Series of ETP Securities or any other person acting on behalf of any of them shall be entitled to take any further steps against the Issuer or any of its officers, shareholders, corporate service providers or directors to recover any further sum in respect of the extinguished claim and no debt shall be owed to any such persons by the Issuer in respect of such further sum.
- (ii) Following the occurrence of a Minimum Redemption Amount Shortfall Event, notwithstanding anything in the Transaction Documents to the contrary, the Transaction Parties and Securityholders in respect of the Series of ETP Securities under which such Minimum Redemption Amount Shortfall Event has occurred shall have recourse only to a portion of the Secured Property relating to the Issuer’s rights in respect of the Swap Termination Amount due and payable under the Swap Transaction entered into in connection with such Series of ETP Securities (including any amounts already received by the Issuer from the Swap Counterparty in respect of such Swap Termination Amount), subject always to the Security, and not to any other assets of the Issuer. If, following realisation in full of such portion of the Secured Property relating to the Issuer’s rights in

respect of such Swap Termination Amount (whether by way of liquidation or enforcement) and application of available cash sums as provided in this Condition 6 (*Security*), the Trust Deed and the Security Deed, as applicable, any outstanding claim against the Issuer in respect any Minimum Redemption Amount Shortfall relating to any ETP Security remains unpaid, then such outstanding claim shall be extinguished and no debt shall be owed by the Issuer in respect thereof. Following the extinguishment of any such claim in accordance with this Condition 6(n) (*Limited Recourse and Non-Petition*), none of the Transaction Parties in respect of any Series of ETP Securities, the Securityholders in respect of any Series of ETP Securities or any other person acting on behalf of any of them shall be entitled to take any further steps against the Issuer or any of its officers, shareholders, corporate service providers or directors to recover any further sum in respect of the extinguished claim and no debt shall be owed to any such persons by the Issuer in respect of such further sum.

- (iii) None of the Transaction Parties in respect of any Series of ETP Securities, the Securityholders in respect of any Series of ETP Securities or any person acting on behalf of any of them may, at any time, bring, institute or join with any other person in bringing, instituting or joining insolvency, administration, bankruptcy, winding-up, examinership or any other similar proceedings (whether court-based or otherwise) in relation to the Issuer or any of its assets.
- (iv) The provisions of this Condition 6(n) (*Limited Recourse and Non-Petition*) shall survive notwithstanding any redemption of the ETP Securities or the termination or expiration of any Transaction Document in respect of this Series of ETP Securities.

(o) **Issuer's Rights as Beneficial Owner of Secured Property**

At any time before any Security becomes enforceable, the Issuer may, with the sanction of a Securityholders' Resolution or with the prior written consent of the Security Trustee:

- (i) take such action in relation to the Secured Property as it may think expedient; and
- (ii) exercise any rights incidental to the ownership of the Secured Property which are exercisable by the Issuer and, in particular (but, without limitation, and without responsibility for their exercise), any voting rights in respect of such property and all rights to enforce any such ownership interests in respect of such property.

The Issuer shall not exercise any rights with respect to the Secured Property, unless it has the consent referred to above or is directed to do so by a Securityholders' Resolution and, if such direction or consent is given, the Issuer shall act only in accordance with such direction or consent, provided that, prior to the enforcement of the Security, the Issuer may release or modify the rights and assets which are comprised in the Secured Property without any further action or consent being required on the part of the Security Trustee to the extent necessary in connection with any of the circumstances described in Condition 6(d) (*Secured Property as continuing Security*) in relation to which the Security over such Secured Property is released.

8 Redemption, Purchase and Options

(a) Final Redemption

Unless previously redeemed in whole or purchased and cancelled by the Issuer as provided below, each ETP Security shall become due and payable on the Scheduled Maturity Date at its Final Redemption Amount.

If the Swap Transaction is scheduled to terminate on the same date as the Scheduled Maturity Date (or the term of the Swap Transaction has been extended as described in Condition 11(c) (*Term of the Swap Transaction*) so that the scheduled termination date of the Swap Transaction is the same date as the Scheduled Maturity Date), the Issuer will be scheduled to receive from the Swap Counterparty under the Swap Agreement an amount equal to the Swap Value (as determined in accordance with Part 5(ff) (*Determination of Swap Value in respect of each Transaction*) of the schedule to the Swap Agreement) as at the Final Redemption Valuation Date (which should equal the Value per ETP Security multiplied by the number of ETP Securities outstanding as at the Final Redemption Valuation Date) (the “**Final Swap Payment Amount**”). The Value per ETP Security in respect of the Final Redemption Valuation Date may be lower than the Minimum Redemption Amount, in which case, for the avoidance of doubt, the Final Redemption Amount will be equal to the Minimum Redemption Amount.

(b) Early Redemption

(i) **Early Redemption Date and Early Redemption Amount**

Following the occurrence of an Early Redemption Event, each ETP Security shall become due and payable on the related Early Redemption Date at its Early Redemption Amount.

The Issuer will be scheduled to receive from the Swap Counterparty under the Swap Agreement an amount equal to the Swap Value (as determined in accordance with Part 5(ff) (*Determination of Swap Value in respect of each Transaction*) of the schedule to the Swap Agreement) as at the Early Redemption Valuation Date (which should equal the Value per ETP Security multiplied by the number of ETP Securities outstanding as at the Early Redemption Valuation Date). The Value per ETP Security in respect of the Early Redemption Valuation Date may be lower than the Minimum Redemption Amount, in which case, for the avoidance of doubt, the Early Redemption Amount will be equal to the Minimum Redemption Amount.

(iii) **Multiple Early Redemption Events**

Notwithstanding anything to the contrary in the Conditions or any Transaction Document, if at any time following the occurrence of an Early Redemption Event (the “**Initial Early Redemption**”

Event") an event or circumstance which would otherwise constitute or give rise to an Early Redemption Event occurs (the "**Secondary Early Redemption Event**") in respect of which the Early Redemption Valuation Date relating thereto occurs (or would occur) prior to the date that would have been the Early Redemption Valuation Date in respect of the Initial Early Redemption Event, the Secondary Early Redemption Event shall prevail and all references to the "Early Redemption Event" in the Conditions and the Transaction Documents shall be construed accordingly.

(c) **Issuer Call Redemption Event**

The Issuer may, on giving an irrevocable notice to the Swap Counterparty and the Securityholders in accordance with Condition 20 (*Notices*), elect to redeem all the ETP Securities of this Series and designate an Early Redemption Valuation Date for such purposes, provided that the date designated as the Early Redemption Valuation Date shall not be earlier than the 60th calendar day following the date of the relevant notice (such notice an "**Issuer Call Redemption Notice**"). The Issuer shall give a copy of the Issuer Call Redemption Notice to each of the Transaction Parties on the same date as such notice is given to the Swap Counterparty and the Securityholders. If the Issuer effectively gives an Issuer Call Redemption Notice to the Trustee, the Trustee shall be entitled to rely on such notice without further investigation or enquiry and without liability to any person in respect of such reliance.

(d) **Early Redemption Events**

An "**Early Redemption Event**" shall occur in accordance with the following Conditions 8(d)(i) (*Issuer Change in Law or Regulation Redemption Event*) to 8(d)(xii) (*Security Enforcement Redemption Event*) on the dates specified therein:

(i) **Issuer Change in Law or Regulation Redemption Event**

On or after the Series Issue Date, if, due to the adoption of or any change in any applicable law, regulation, rule, order, ruling or procedure (including, without limitation, any tax law and any regulation, rule, order, ruling or procedure of any applicable regulatory authority, tax authority and/or any exchange) or due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority):

- (A) it has (or reasonably expects that it will) become illegal for the Issuer to (x) hold, acquire or dispose of all of the types of Eligible Collateral, and/or (y) perform its obligations under the ETP Securities and/or the Swap Agreement and/or the Account Control Agreement and/or the Swap Pledge Agreement; or
- (B) the Issuer would (or would expect to) incur a materially increased cost in performing its obligations under the ETP Securities and/or the Swap Agreement and/or the Account Control Agreement and/or the Swap Pledge Agreement (including, without limitation, any increase in any applicable Taxes, any decrease in any applicable tax benefit and/or any other costs or liability to Tax of the Issuer relating to any change in any applicable tax law or regulation but excluding any materially increased cost incurred or expected to be incurred in connection with Section 871(m)),

the Issuer may give the Trustee, the Authorised Participants, the Issuing and Paying Agent, the Swap Counterparty and the Securityholders notice in accordance with Condition 20 (*Notices*) that all the ETP Securities of this Series are to be redeemed and designate in such notice an Early Redemption Valuation Date for such purposes, provided that the date designated as the Early Redemption Valuation Date shall not be earlier than the 7th calendar day following the date of the relevant notice (such notice a "**Change of Law Redemption Notice**"). If the Issuer effectively gives a Change of Law Redemption Notice to the Trustee, the Trustee shall be entitled to rely on

such notice without further investigation or enquiry and without liability to any person in respect of such reliance.

For the purposes of Condition 8(b) (*Early Redemption*), an Early Redemption Event in the form of an “**Issuer Change in Law or Regulation Redemption Event**” will occur on the Early Redemption Valuation Date designated in the Change of Law Redemption Notice (or if such day is not a Relevant Business Day, on the first following Relevant Business Day).

(ii) ***Index Cancellation Redemption Event***

If the Index Sponsor permanently cancels the Index and the Swap Calculation Agent determines in accordance with Part 5(kk)(ii) (*Successor Index and Index Sponsor*) of the schedule to the Swap Agreement that no Successor Index exists as of a Scheduled Valuation Day, the Swap Calculation Agent shall, on the immediately following London and Paris Business Day and in accordance with Part 5(kk) (*Successor Index and Index Sponsor*), notify the Issuer of such determination (such notice shall be copied to each Transaction Party (other than the Authorised Participant(s))) (such notice an “**Index Cancellation No Successor Notice**”). If the Swap Calculation Agent effectively gives an Index Cancellation No Successor Notice to the Trustee, the Trustee shall be entitled to rely on such notice without further investigation or enquiry and without liability to any person in respect of such reliance. The Issuer shall, as soon as reasonably practicable after receipt of an Index Cancellation No Successor Notice from the Swap Calculation Agent, notify the Authorised Participant(s) and the Securityholders in accordance with Condition 20 (*Notices*) of the same.

For the purposes of Condition 8(b) (*Early Redemption*), an Early Redemption Event in the form of an “**Index Cancellation Redemption Event**” will occur on the fourth Relevant Business Day following the date of the Index Cancellation No Successor Notice.

(iii) ***Scheduled Swap Redemption Event***

If the Swap Transaction is scheduled to terminate in accordance with the terms of the Swap Agreement on a day falling prior to the Scheduled Maturity Date and the Swap Counterparty has elected not to extend the term of the Swap Agreement as described in Condition 11(c) (*Term of the Swap Transaction*) and pursuant to Part 5(ll) (*Extension to the term of a Transaction*) of the schedule to the Swap Agreement, the Swap Counterparty shall give the Issuer not less than 180 calendar days’ prior notice (copied to the Trustee, each Authorised Participant and the Issuing and Paying Agent) of such election. If the Swap Counterparty effectively gives a valid notice of such election to the Trustee, the Trustee shall be entitled to rely on such notice without further investigation or enquiry and without liability to any person in respect of such reliance. The Issuer shall, as soon as reasonably practicable after receipt of such notice from the Swap Counterparty, notify the Securityholders of the Swap Counterparty’s election in accordance with Condition 20 (*Notices*).

For the purposes of Condition 8(b) (*Early Redemption*), an Early Redemption Event in the form of a “**Scheduled Swap Redemption Event**” will occur on the scheduled termination date of the Swap Transaction.

(iv) ***Swap Agreement Redemption Event***

If a date occurs or is designated by the Issuer or the Swap Counterparty, as applicable (or deemed to have occurred or been designated automatically in accordance with the terms of the Swap Agreement), on which the Swap Agreement or the Swap Transaction thereunder is to terminate in whole prior to the Scheduled Maturity Date (the date of termination being the “**Swap Early Termination Date**”) for any reason other than the occurrence of an Early Redemption Event:

- (A) the Issuer shall as soon as reasonably practicable give notice to the Swap Counterparty (copied to each Transaction Party) and to the Securityholders in accordance with Condition 20 (*Notices*) (I) if it designates a Swap Early Termination Date under the Swap Agreement or (II) if a Swap Early Termination Date is automatically designated under the Swap Agreement; or
- (B) the Swap Counterparty shall as soon as reasonably practicable give notice to the Issuer (copied to each Transaction Party (other than the Authorised Participant(s))) if it designates a Swap Early Termination Date under the Swap Agreement and the Issuer shall, as soon as reasonably practicable after receipt of such notice, give notice thereof to the Securityholders in accordance with Condition 20 (*Notices*) and to the Authorised Participant(s).

- (B) no successor or replacement has been appointed within 60 (or in the case of the Swap Collateral Custodian, 90) calendar days of the date of notice of resignation or termination or the date the appointment was automatically terminated in accordance with the Agency Agreement, the Account Control Agreement or the Authorised Participant Agreement, as applicable,

the Issuer shall give notice (an “**Agent Redemption Event Notice**”) of the same to the other Transaction Parties and the Securityholders in accordance with Condition 20 (*Notices*). If the Issuer effectively gives an Agent Redemption Event Notice to the Trustee, the Trustee shall be entitled to rely on such notice without further investigation or enquiry and without liability to any person in respect of such reliance.

For the purposes of Condition 8(b) (*Early Redemption*), an Early Redemption Event in the form of an “**Agent Redemption Event**” will occur on the fourth Relevant Business Day after the date of the Agent Redemption Event Notice.

(vi) **Publication Failure Redemption Event**

If the Value per ETP Security has not been published by (or on behalf of) the Issuer in respect of 14 consecutive Scheduled Valuation Days (a “**Publication Failure Event**”) and the Trustee is notified in writing of such Publication Failure Event and directed in writing by holders of at least one-fifth in number of the ETP Securities then outstanding to give a notice under this Condition 8(d)(vi) (*Publication Failure Redemption Event*) to the Issuer, the Trustee shall, provided that the Trustee has been pre-funded and/or secured and/or indemnified to its satisfaction, give such notice (a “**Publication Event Redemption Notice**”) to the Issuer, who shall in turn give notice of the same to each of the Transaction Parties. Any such notice and direction given to the Trustee

pursuant to this Condition 8(d)(vi) (*Publication Failure Redemption Event*) by Securityholders must be substantially in the form set out in the Agency Agreement which is available from the Issuing and Paying Agent and/or any Paying Agent.

The Trustee shall not be responsible for or be liable to the Issuer, any Securityholder or any Transaction Party for investigating, verifying, determining or monitoring whether a Publication Failure Event has occurred or exists and, unless and until the Trustee receives notice from the requisite number of Securityholders and is directed as aforementioned, the Trustee shall be entitled to assume that no such event has occurred.

For the purposes of Condition 8(b) (*Early Redemption*), an Early Redemption Event in the form of a **“Publication Failure Redemption Event”** will occur on the fourth Relevant Business Day following the date of the Publication Event Redemption Notice.

(vii) **Value per ETP Security Threshold Redemption Event**

If the Issuer effectively gives a Value per ETP Security Threshold Level Notice to the Trustee, the Trustee shall be entitled to rely on such notice without further investigation or enquiry and without liability to any person in respect of such reliance.

For the purposes of Condition 8(b) (*Early Redemption*), an Early Redemption Event in the form of a **“Value per ETP Security Threshold Redemption Event”** will occur on the Relevant Business Day immediately following the date of the Value per ETP Security Threshold Level Notice.

(viii) **Issuer Call Redemption Event**

Following a valid exercise of the call option by the Issuer in accordance with Condition 8(c) (*Issuer Call Redemption Event*), for the purposes of Condition 8(b) (*Early Redemption*), an Early Redemption Event in the form of an **“Issuer Call Redemption Event”** will occur on the Early Redemption Valuation Date designated in the Issuer Call Redemption Notice (or if such day is not a Relevant Business Day on the first following Relevant Business Day).

(ix) **AP Redemption Event**

If a Securityholder requests a firm bid price from one or more Authorised Participants for its ETP Securities on each of five consecutive Relevant Business Days and no Authorised Participant provides the Securityholder with a firm bid price for such ETP Securities (a **“Bid Price Request Event”**), the Securityholder may deliver a notice in writing to the Issuer and each Authorised Participant notifying them of the occurrence of such Bid Price Request Event (a **“Bid Price Request Notice”**).

If the Securityholder delivers a Bid Price Request Notice to such persons and none of the Authorised Participants provides a firm bid price to the relevant Securityholder on any of the 20 consecutive Relevant Business Days from (and including) the date of the relevant Bid Price Request Notice (such 20th Relevant Business Day, the **“Bid Price Request Period End Date”**), an **“AP Bid Price Event”** shall be deemed to have occurred on such Bid Price Request Period End Date and such Securityholder may give notice thereof to the Issuer.

Upon receipt of any such notice by the Issuer, and provided that any such notice is accompanied by evidence to the satisfaction of the Issuer that an AP Bid Price Event has so occurred, the Issuer shall, once satisfied of the occurrence of such AP Bid Price Event (for which purposes the Issuer may consult with the Authorised Participants), give notice to the Transaction Parties and the

Securityholders in accordance with Condition 20 (*Notices*) that the ETP Securities are to be redeemed in full prior to their Scheduled Maturity Date (an “**AP Redemption Event Notice**”). If the Issuer effectively gives an AP Redemption Event Notice to the Trustee, the Trustee shall be entitled to rely on such notice without further investigation or enquiry and without liability to any person in respect of such reliance.

For the purposes of Condition 8(b) (*Early Redemption*), an Early Redemption Event in the form of an “**AP Redemption Event**” will occur on the fourth Relevant Business Day following the date of such AP Redemption Event Notice.

(x) **Swap Counterparty Default Redemption Event**

If a Swap Counterparty Event of Default occurs and is continuing, and the Trustee is notified in writing of such Swap Counterparty Event of Default and directed in writing by holders of at least one-fifth in number of the ETP Securities then outstanding to give a notice under this Condition 8(d)(x) (*Swap Counterparty Default Redemption Event*), the Trustee shall, provided that the Trustee has been pre-funded and/or secured and/or indemnified to its satisfaction, give such notice (a “**Swap Counterparty Default Redemption Notice**”) to the Issuer, who shall in turn give notice of the same to each of the Transaction Parties. Any direction given to the Trustee pursuant to this Condition 8(d)(x) (*Swap Counterparty Default Redemption Event*) by Securityholders must be substantially in the form set out in the Agency Agreement which is available from the Issuing and Paying Agent and/or any Paying Agent.

The Trustee shall not be responsible for or liable to the Issuer, any Securityholder or any Transaction Party for investigating, verifying, determining or monitoring whether a Swap Counterparty Event of Default has occurred or exists and, unless and until the Trustee receives notice from the requisite number of Securityholders and is directed as aforementioned, the Trustee shall be entitled to assume that no such event has occurred.

For the purposes of Condition 8(b) (*Early Redemption*) an Early Redemption Event in the form of a “**Swap Counterparty Default Redemption Event**” will occur on the fourth Relevant Business Day following the date of the Swap Counterparty Default Redemption Notice.

(xi) **Swap Tax Event Redemption Event**

If the Issuer becomes entitled to designate a Swap Early Termination Date following a Swap Agreement Tax Event, and the Trustee is notified in writing of such entitlement and directed in writing by holders of at least one-fifth in number of the ETP Securities then outstanding to give a notice under this Condition 8(d)(xi) (*Swap Tax Event Redemption Event*), the Trustee shall, provided that the Trustee has been pre-funded and/or secured and/or indemnified to its satisfaction, give such notice (a “**Swap Tax Event Redemption Notice**”) to the Issuer, who shall in turn give notice of the same to each of the Transaction Parties. Any direction given to the Trustee pursuant to this Condition 8(d)(xi) (*Swap Tax Event Redemption Event*) by Securityholders must be substantially in the form set out in the Agency Agreement which is available from the Issuing and Paying Agent and/or any Paying Agent.

The Trustee shall not be responsible for or liable to the Issuer, any Securityholder or any Transaction Party for investigating, verifying, determining or monitoring whether a Swap Agreement Tax Event has occurred or exists and, unless and until the Trustee receives notice from Securityholders and is directed as aforementioned, the Trustee shall be entitled to assume that no such event has occurred.

For the purposes of Condition 8(b) (*Early Redemption*), an Early Redemption Event in the form of a “**Swap Tax Event Redemption Event**” will occur on the fourth Relevant Business Day after the date of the Swap Tax Event Redemption Notice.

(xii) **Security Enforcement Redemption Event**

If the Security over the Secured Property becomes enforceable pursuant to the Security Deed, the Issuer shall notify (a “**Security Enforcement Redemption Notice**”) the Trustee (copied to each of the Transaction Parties), the Authorised Participant(s) and the Securityholders in accordance with Condition 20 (*Notices*) of such occurrence. If the Issuer effectively gives a Security Enforcement Redemption Notice to the Trustee, the Trustee shall be entitled to rely on such notice without further investigation or enquiry and without liability to any person in respect of such reliance.

(e) **Purchase of ETP Securities**

(i) **Procedure for Requesting a Purchase**

The Issuer may (without the consent of the Trustee or any Securityholder), from time to time, purchase all or some of the ETP Securities from Authorised Participants at each ETP Security’s Purchase Settlement Amount.

In accordance with clause 4.1 (Request for Issuer to Purchase ETP Securities) of the Authorised Participant Agreement, only an Authorised Participant may request that the Issuer purchase ETP Securities by delivering a Purchase Order to the Issuer (copied to the Swap Counterparty). A Valid Purchase Order Confirmation will only be delivered by (or on behalf of) the Issuer to the relevant Authorised Participant and the Swap Counterparty if it has determined (or has had determined on its behalf) that all conditions to a valid Purchase Order, as set out in clause 4.2 (Validity of Purchase Orders) of the Authorised Participant Agreement, have been satisfied. The Issuer shall have no obligation to purchase ETP Securities and no obligation to accept any Purchase Orders or deliver (or have delivered on its behalf) any Valid Purchase Order Confirmations from (but excluding) the 15th Relevant Business Day preceding the Scheduled Maturity Date.

(ii) **Suspension of Purchases**

(A) **Suspension Threshold Trigger**

Subject to Conditions 8(e)(ii)(B) (*Early Redemption Events*) and (C) (*Issuing and Paying Agent Bankruptcy Event*) below, if on any Scheduled Valuation Day (a “**Suspension Threshold Trigger Date**”) the Value per ETP Security falls to less than 1000 per cent. of the Minimum Redemption Amount, the Issuer:

- (I) shall give notice convening a meeting of the Securityholders on a date not more than 30 calendar days after the Suspension Threshold Trigger Date for the purpose of considering an Extraordinary Resolution which would have the effect of reducing the Minimum Redemption Amount to an amount which is not less than 2 per cent. of the Value per ETP Security as at the Suspension Threshold Trigger Date; and
- (II) may, at any time after the Suspension Threshold Trigger Date and in accordance with clause 4.7 (*Purchase Suspension Event*) of the Authorised Participant Agreement, for so long as the Value per ETP Security continues to be less than 1000 per cent. of the Minimum Redemption Amount, suspend the Authorised Participants’ right to deliver a Purchase Order in accordance with clause 4.1 (*Request for Issuer to Purchase ETP Securities*) of the Authorised Participant Agreement other than on the basis of an Agreed Pricing Purchase Settlement Amount by giving notice to that effect to the Issuing and Paying Agent, each Authorised Participant and the Swap

Counterparty (a "**Purchase Suspension Event**"). If the Issuer elects to so suspend such right, then no Authorised Participant may submit a Purchase Order to the Issuer on the basis of an Index Pricing Purchase Settlement Amount with effect from the date of suspension specified in the relevant notice of suspension until (X) the Value per ETP Security ceases to be less than 1000 per cent. of the Minimum Redemption Amount or (Y) the Issuer notifies the Issuing and Paying Agent, each Authorised Participant and the Swap Counterparty in accordance with clause 4.7 (Purchase Suspension Event) of the Authorised Participant Agreement of the cessation of such suspension.

(B) *Early Redemption Events*

In accordance with clause 4.2 (Validity of Purchase Orders) of the Authorised Participant Agreement, if:

- (I) *an Issuer Call Redemption Notice is delivered, the last day on which the Issuer is required to accept a Purchase Order and deliver (or have delivered on its behalf) a Valid Purchase Order Confirmation shall be the 4th Relevant Business Day preceding the related Early Redemption Valuation Date designated in such notice;*
- (II) *a Change of Law Redemption Notice is delivered by the Issuer, the last day on which the Issuer is required to accept a Purchase Order and deliver (or have delivered on its behalf) a Valid Purchase Order Confirmation shall be the 4th Relevant Business Day preceding the related Early Redemption Valuation Date designated in such notice;*
- (III) *the Swap Counterparty elects for the Swap Transaction to terminate on the last day of its scheduled term and such date falls before the Scheduled Maturity Date, the last day on which the Issuer is required to accept a Purchase Order and deliver (or have delivered on its behalf) a Valid Purchase Order Confirmation shall be the 7th Relevant Business Day preceding the scheduled termination date of the Swap Transaction;*
- (IV) *a Swap Early Termination Date is designated or occurs under the Swap Agreement for any reason other than the occurrence of an Early Redemption Event, a Party A Optional Termination Event or a Party B Optional Termination Event, the last day on which the Issuer is required to accept a Purchase Order and deliver (or have delivered on its behalf) a Valid Purchase Order Confirmation shall be the earlier of (X) the date of the notice (if any) designating the Swap Early Termination Date or (Y) the Swap Early Termination Date, as applicable;*
- (V) *a Swap Early Termination Date is designated or occurs under the Swap Agreement in connection with the occurrence of a Party A Optional Termination Event or Party B Optional Termination Event, the last day on which the Issuer is required to accept a Purchase Order and deliver (or have delivered on its behalf) a Valid Purchase Order Confirmation shall be the 4th Relevant Business Day preceding such Swap Early Termination Date; and*
- (VI) *an Index Cancellation No Successor Notice, an Agent Redemption Event Notice, a Publication Event Redemption Notice, a Value per ETP Security Threshold Level Notice, an AP Redemption Event Notice, a Swap Counterparty Default Redemption Notice, a Swap Tax Event Redemption Notice or a Security Enforcement Redemption Notice is delivered, the last day on which the Issuer is required to accept*

a Purchase Order and deliver (or have delivered on its behalf) a Valid Purchase Order Confirmation shall be the date of such notice.

(C) *Issuing and Paying Agent Bankruptcy Event*

In accordance with clause 4.8 (Issuing and Paying Agent Bankruptcy Event) of the Authorised Participant Agreement, if an Issuing and Paying Agent Bankruptcy Event occurs, the Issuer will not be obliged to accept any further Purchase Orders or deliver (or have delivered on its behalf) any Valid Purchase Order Confirmations until (I) such time as a replacement Issuing and Paying Agent is appointed in accordance with the Agency Agreement or (II) the Issuer is procuring determination of the requisite determinations and calculations of the Issuing and Paying Agent pursuant to Condition 12(d)(ii) (Calculations and Determinations).

(D) *No Closing Index Level published*

In accordance with clause 4.2 (Validity of Purchase Orders) of the Authorised Participant Agreement, the Issuer will not be obliged to deliver (or have delivered on its behalf) a Valid Purchase Order Confirmation in respect of a Purchase Order delivered on any Relevant Business Day if no Closing Index Level has been published by the Issuer on the Website on such Relevant Business Day in respect of the preceding Scheduled Valuation Day.

(iii) **Cancellation of purchases prior to Purchase Settlement Date**

(A) *Prolonged Settlement Delay*

*Provided that the purchase confirmed by a Valid Purchase Order Confirmation has not been cancelled pursuant to Condition 8(e)(iii)(B) (Swap Counterparty Bankruptcy Event) or Condition 8(e)(iii)(C) (Early Redemption Event or Final Redemption Valuation Date), where the related Purchase Settlement Date has not occurred by close of business on the third London and Paris Business Day following the Scheduled Purchase Settlement Date (the “**Purchase Settlement Backstop Date**”), such Valid Purchase Order Confirmation (including the purchase confirmed by such Valid Purchase Order Confirmation) and the related Purchase Order shall each be automatically cancelled and deemed void with effect from such Purchase Settlement Backstop Date.*

*Following notification of a settlement failure in accordance with clause 4.6 (Notification of Purchase Settlement Failure) of the relevant Authorised Participant Agreement, the relevant Authorised Participant and the Swap Counterparty may agree to adjust the Purchase Settlement Backstop Date (any date so agreed, the “**Adjusted Purchase Settlement Backstop Date**”). If an Adjusted Purchase Settlement Backstop Date is agreed, the Swap Counterparty shall notify the Issuer and the Issuing and Paying Agent of such date and the Valid Purchase Order Confirmation (including the purchase confirmed by such Valid Purchase Order Confirmation) and the related Purchase Order shall not be automatically cancelled and deemed void with effect from the Purchase Settlement Backstop Date, but rather from such Adjusted Purchase Settlement Backstop Date. Any adjustment to the Purchase Settlement Backstop Date shall not affect the operation of Condition 8(e)(iii)(B) (Swap Counterparty Bankruptcy Event) or 8(e)(iii)(C) (Early Redemption Event or Final Redemption Valuation Date) with respect to a cancellation prior to the Adjusted Purchase Settlement Backstop Date of the Valid Purchase Order Confirmation (including the purchase confirmed by such Valid Purchase Order Confirmation) and related Purchase Order.*

(B) *Swap Counterparty Bankruptcy Event*

Provided that the purchase confirmed by a Valid Purchase Order Confirmation has not been cancelled pursuant to Condition 8(e)(iii)(A) (Prolonged Settlement Delay) or Condition 8(e)(iii)(C) (Early Redemption Event or Final Redemption Valuation Date), where the related Purchase Settlement Date has not occurred and a Swap Counterparty Bankruptcy Event occurs, such Valid Purchase Order Confirmation (including the purchase confirmed by such Valid Purchase Order Confirmation) and the related Purchase Order shall each be automatically cancelled and deemed void with effect from the date of the occurrence of such Swap Counterparty Bankruptcy Event.

(C) *Early Redemption Event, Event of Default or Final Redemption Valuation Date*

Provided that the purchase confirmed by a Valid Purchase Order Confirmation has not been cancelled pursuant to Condition 8(e)(iii)(A) (Prolonged Settlement Delay) or Condition 8(e)(iii)(B) (Swap Counterparty Bankruptcy Event), where the related Purchase Settlement Date has not occurred and an Early Redemption Event, Event of Default or the Final Redemption Valuation Date occurs, such Valid Purchase Order Confirmation (including the purchase confirmed by such Valid Purchase Order Confirmation) and the related Purchase Order shall each be automatically cancelled and deemed void with effect from the relevant Early Redemption Valuation Date or the Final Redemption Valuation Date, as applicable.

(D) *Return of amounts to Swap Counterparty*

Following the cancellation of a Valid Purchase Order Confirmation (including the purchase confirmed by such Valid Purchase Order Confirmation) and the related Purchase Order in accordance with this Condition 8(e)(iii), the Issuer shall return in full any amounts received from the Swap Counterparty in connection with such Valid Purchase Order Confirmation in accordance with Part 5(jj) (Return of Partial Early Termination Amount following a Purchase Cancellation Date) of the schedule to the Swap Agreement.

(iv) **Purchase and Cancellation**

ETP Securities purchased by the Issuer from an Authorised Participant will be purchased on such terms (including, but not limited to, the Purchase Settlement Amount) as may be agreed between the Issuer and the Authorised Participant on a delivery versus payment basis (in other words, that payment is made either before or at the same time as the delivery of the securities). Settlement of any purchase by the Issuer of ETP Securities confirmed by a Valid Purchase Order Confirmation may only occur in full and shall not, in any circumstances, be partially settled.

All ETP Securities purchased by (or on behalf of) the Issuer shall be surrendered for cancellation by surrendering each such ETP Security to or to the order of the Issuing and Paying Agent and shall, together with all ETP Securities redeemed by the Issuer, be cancelled forthwith. Any ETP Securities so cancelled may not be reissued or resold and the obligations of the Issuer in respect of any such ETP Securities shall be discharged. In accordance with the Security Deed, the Security Trustee will and will be deemed to release without the need for any notice or other formalities from such Security the relevant portion of the Secured Property relating to the ETP Securities so purchased and cancelled.

Where the ETP Securities are represented by a Global Security, cancellation of any ETP Security represented by such Global Security that is required by these Conditions to be cancelled (other than upon its redemption) will be effected by a reduction in the number of ETP Securities represented by such Global Security representing such ETP Security on its presentation to or to the order of the Issuing and Paying Agent for endorsement, whereupon the number of ETP Securities represented by such Global Security will be reduced for all purposes by the number of ETP Securities so cancelled and endorsed.

- (iii) payment upon due presentation of the Global Security will operate as a good discharge against such holder and all previous holders of the Global Security.

13 Prescription

Claims against the Issuer for payment under the Conditions in respect of the ETP Securities shall be prescribed and become void unless made within 10 years (in the case of Redemption Amounts) or five years (in the case of default interest) from the date on which the payment of the Redemption Amount in respect of the ETP Securities first became due or (if any amount of the money payable was improperly withheld or refused) the date on which payment in full of the amount outstanding was made or (if earlier) the date seven days after that on which notice is duly given to the Securityholders that, upon further presentation of the ETP Security being made in accordance with the Conditions, such payment will be made, provided that payment is in fact made upon such presentation (such date the “**Relevant Date**”), save that if the ETP Securities are in global form claims in respect of Redemption Amounts and default interest (if any) in respect of the relevant Global Security shall become void unless the Global Security is presented for payment within a period of 10 years (in the case of Redemption Amounts) or five years (in the case of default interest) from the appropriate Relevant Date.

(b) **Modification of the Relevant Transaction Documents**

Without prejudice to Condition 16(a) (*Meetings of Securityholders*), the Trustee may agree, without the consent of the Securityholders, to (i) any modification to these Conditions, the Trust Deed and/or any other Transaction Document to which the Trustee is a party which is, in the opinion of the Trustee, of a formal, minor or technical nature or is made to correct a manifest error, and (ii) any other modification, and any waiver or authorisation of any breach or proposed breach of any of these Conditions or any of the provisions of the Trust Deed and/or any other Transaction Document to which the Trustee is a party that is in the opinion of the Trustee not materially prejudicial to the interests of the Securityholders. Any such modification, authorisation or waiver will be binding on the Securityholders and, if the Trustee so requires, such modification will be notified by the Issuer to the Securityholders in accordance with Condition 20 (*Notices*) as soon as reasonably practicable.

The Security Trustee may agree, without the consent of the Securityholders of any Series of ETP Securities, to (i) any modification to the Security Deed, the Swap Agreement, the Swap Pledge Agreement and/or the Account Control Agreement that is, in the opinion of the Security Trustee, of a formal, minor or technical nature or is made to correct a manifest error, and (ii) any other modification, and any waiver or authorisation of any breach or proposed breach of any term of the Security Deed that is in the opinion of the Security Trustee not materially prejudicial to the interests of the Securityholders of any Series of ETP Securities. Any such modification, authorisation or waiver will be binding on the Securityholders of each Series of ETP Securities and such modification will be notified by the Issuer to the Securityholders of each Series of ETP Securities in accordance with Condition 20 (*Notices*) of such Series of ETP Securities as soon as reasonably practicable unless the Trustee decides otherwise.

(c) **Waiver**

The Trustee may, without the consent of the Securityholders and without prejudice to its rights in respect of any subsequent breach, from time to time and at any time, if in its opinion the interests of the Securityholders will not be materially prejudiced thereby, waive or authorise, on such terms as seem expedient to it, any breach or proposed breach by the Issuer of the Trust Deed, the Conditions or any other Transaction Document or determine that an Event of Default or Potential Event of Default will not be treated as such provided that the Trustee will not do so in contravention of an express direction given by an Extraordinary Resolution. No such direction or request will affect a previous waiver, authorisation or determination. Any such waiver, authorisation or determination will be binding on the Securityholders and will be notified to the Securityholders as soon as practicable unless the Trustee decides otherwise.

(d) **Substitution of Issuer**

The Trustee may, without the consent of the Securityholders, agree to the substitution, in place of the Issuer (or of any previous substitute) as the principal debtor under the Trust Deed, the Security Deed, the other Transaction Documents to which it is a party and the ETP Securities, of any other company (incorporated in any jurisdiction) (any such substitute company being the “**Substituted Obligor**”) whether in connection with the occurrence of a Swap Agreement Tax Event under the Swap Agreement or otherwise, provided that:

- (i) a deed is executed or undertaking given by the Substituted Obligor to the Trustee, in form and manner satisfactory to the Trustee, agreeing to be bound by the Trust Deed, the Security Deed and the ETP Securities (with such consequential amendments as the Trustee, in its opinion, may deem appropriate) as if the Substituted Obligor had been named in the Trust Deed, the Security Deed and the ETP Securities as the principal debtor in place of the Issuer;
- (ii) the Substituted Obligor assumes all rights, obligations and liabilities in relation to the Secured Property, acknowledges the Security created in respect thereof pursuant to the Security Deed and takes all such action as the Trustee, in its opinion, may require so that the Security constitutes a

valid charge, pledge or other security interest over the Secured Property as was originally created by the Issuer for the obligations of the Substituted Obligor;

- (iii) if any director of the Substituted Obligor certifies that it will be solvent immediately after such substitution, the Trustee shall not have regard to the Substituted Obligor's financial condition, profits or prospects or compare them with those of the Issuer;
- (iv) the Trustee will be satisfied (if it requires, by reference to legal opinions) that (A) all necessary governmental and regulatory approvals and consents necessary for or in connection with the assumption by the Substituted Obligor of liability as principal debtor in respect of, and of its obligations under, the ETP Securities and any Transaction Document have been obtained and (B) such approvals and consents are at the time of substitution in full force and effect;
- (v) the Issuer and the Substituted Obligor will (A) execute, and the Issuer shall procure that the Swap Counterparty and any other Transaction Party will execute, such other deeds, documents and instruments (if any) as the Trustee may require in order that such substitution is fully effective and (B) comply with such other requirements in the interests of the Securityholders as the Trustee may direct;
- (vi) in connection with any proposed substitution of the Issuer, the Trustee may, without the consent of the holders of the ETP Securities, agree to a change of the law from time to time governing such ETP Securities and/or the Issue Deed and/or the Trust Deed and/or the Security Deed, provided that such change of law, in the opinion of the Trustee, would not be materially prejudicial to the interests of such Securityholders; and
- (vii) a legal opinion satisfactory to the Trustee is provided concerning any proposed substitution.

An agreement by the Trustee pursuant to this Condition 16(d) (*Substitution of Issuer*) and the Trust Deed shall, if so expressed, release the Issuer (or a previous substitute) from any or all of its obligations under the Trust Deed, the ETP Securities and the other Transaction Documents. The Substituted Obligor shall give notice of the substitution to the Securityholders within 14 calendar days of the execution of such documents and compliance with such requirements.

On completion of the formalities set out in this Condition 16(d) (*Substitution of Issuer*) and the Trust Deed, the Substituted Obligor shall be deemed to be named in these Conditions, the Trust Deed, the other Transaction Documents and the ETP Securities as the principal debtor in place of the Issuer (or of any previous substitute) and these Conditions, the Trust Deed, the other Transaction Documents and the ETP Securities shall be deemed to be amended as necessary to give effect to the substitution.

(e) **Proof of Default**

Proof that the Issuer has failed to make a payment of a Redemption Amount when due under the Conditions to the holder of any one ETP Security will (unless the contrary be proved) be sufficient evidence that it has made the same default as regards all other ETP Securities that are then payable.

(f) **Entitlement of the Trustee**

In accordance with the terms of the Trust Deed, in connection with the exercise of its functions (including, but not limited to, those referred to in this Condition 16 (*Meetings of Securityholders, Modification, Waiver, Substitution and Restrictions*)) the Trustee will have regard to the interests of the Securityholders as a class and will not have regard to the consequences of such exercise for individual Securityholders and the Trustee will not be entitled to require, nor shall any Securityholder be entitled to claim, from the Issuer any indemnification or payment in respect of any tax consequence of any such exercise upon individual Securityholders. So long as the ETP Securities are in global form and the Global Security is held by or on behalf of the Relevant Clearing System, in considering the interests of Securityholders, the Trustee may have regard to any information provided to it by the Relevant Clearing System or its operator

as to the identity (either individually or by category) of its accountholders or participants with entitlements to any such Global Security and may consider such interests on the basis that such accountholders or participants were the holder(s) thereof.

(g) **Entitlement of the Security Trustee**

In accordance with the terms of the Security Deed, in connection with the exercise of its functions (including, but not limited to, those referred to in this Condition 16 (*Meetings of Securityholders, Modification, Waiver, Substitution and Restrictions*)) the Security Trustee will have regard to the interests of the Securityholders of each Series of ETP Securities as a class and will not have regard to the consequences of such exercise for individual Securityholders of any Series of ETP Securities or the other Secured Creditors and the Security Trustee will not be entitled to require, nor shall any Securityholder of any Series of ETP Securities be entitled to claim, from the Issuer any indemnification or payment in respect of any tax consequence of any such exercise upon individual Securityholders of any Series of ETP Securities. So long as the ETP Securities of any Series of ETP Securities are in global form and the Global Security is held by or on behalf of the Relevant Clearing System, in considering the interests of Securityholders in respect of such Series of ETP Securities, the Security Trustee may have regard to any information provided to it by the Relevant Clearing System or its operator as to the identity (either individually or by category) of its accountholders or participants with entitlements to any such Global Security and may consider such interests on the basis that such accountholders or participants were the holder(s) thereof.

17 Replacement of ETP Securities

If an ETP Security in bearer form is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and stock exchange or other relevant authority regulations, at the specified office of the Issuing and Paying Agent in London or such other Paying Agent, as the case may be, as may, from time to time, be designated by the Issuer for the purpose and notice of whose designation is given to Securityholders, in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security, indemnity (which may provide, for example, that if the allegedly lost, stolen or destroyed ETP Security is subsequently presented for payment there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such ETP Security) and otherwise as the Issuer may require. Mutilated or defaced ETP Securities must be surrendered before replacements will be issued.

18 Further Issues of ETP Securities

(a) **Procedure for Requesting a Further Issuance**

Subject to Condition 6 (*Security*), the Issuer may, from time to time (without the consent of the Trustee or any Securityholder), in accordance with the Trust Deed, the Conditions, the Agency Agreement and the Authorised Participant Agreement, create and issue further securities having the same terms and conditions as the ETP Securities in all respects and so that such further issue shall be consolidated and form a single series with the ETP Securities.

In accordance with clause 3.1 (Request to Issue and Subscribe) of the Authorised Participant Agreement, only an Authorised Participant may request that the Issuer issue additional Tranches of the ETP Securities by delivering a Creation Order to the Issuer (copied to the Swap Counterparty). A Valid Creation Order Confirmation will only be delivered by (or on behalf of) the Issuer to the relevant Authorised Participant and the Swap Counterparty if it has determined (or has had determined on its behalf) that all conditions to a valid Creation Order, as set out in clause 3.2 (Validity of Creation Orders) of the Authorised Participant Agreement, have been satisfied. Settlement of any further issuance by the Issuer of ETP Securities proposed by a Valid Creation Order Confirmation may only occur in full and shall not, in any circumstances, be partially settled. The Issuer shall have no obligation to issue further

ETP Securities and no obligation to accept any Creation Orders or deliver (or have delivered on its behalf) any Valid Creation Order Confirmations from (but excluding) the 15th Relevant Business Day preceding the Scheduled Maturity Date.

ETP Securities requested for issue and subscribed for by an Authorised Participant may be held on an inventory basis by such Authorised Participant and offered for sale and/or sold over a period of time.

Any new securities forming a single series with the ETP Securities and which are expressed to be constituted by the Trust Deed and secured by the Security Deed will, upon the issue thereof by the Issuer, be constituted by the Trust Deed and secured by the Security Deed without any further formality and irrespective of whether or not the issue of such securities contravenes any covenant or other restriction in the Trust Deed or the Programme Maximum Number of ETP Securities and shall be secured by the same Secured Property (as increased and/or supplemented in connection with such issue of such new securities) and references in these Conditions to “**Belgian Law Secured Property**”, “**English Law Secured Property**”, “**ETP Securities**”, “**Secured Property**”, “**Swap Agreement**”, “**Swap Pledge Agreement**”, “**Secured Issuer Obligations**”, “**Other Issuer Obligations**”, “**Secured Creditors**” and “**Other Creditors**” shall be construed accordingly.

24 Jurisdiction

- (a) **Jurisdiction**

The courts of England are to have exclusive jurisdiction to settle any disputes that may arise out of or in connection with any ETP Securities and, accordingly, any legal action or proceedings arising out of or in connection with any ETP Securities ("**Proceedings**") may be brought in such courts. The Issuer irrevocably submits to the jurisdiction of such courts and waives any objections to Proceedings in such courts on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum.

(b) **Service of Process**

The Issuer shall by executing the Issue Deed irrevocably appoint for the time being the process agent specified in such Issue Deed to receive, for it and on its behalf, service of process in any Proceedings in England. Service of process on such process agent shall be deemed valid service upon the Issuer whether or not it is forwarded to and received by the Issuer. The Issuer shall inform the Trustee in writing of any change in its process agent's address within 28 calendar days of such change. If for any reason such process agent ceases to be able to act as such or no longer has an address in London, the Issuer irrevocably agrees to appoint a substitute process agent in England reasonably acceptable to the Trustee and to deliver to it a copy of the substitute process agent's written acceptance of that appointment, within 14 calendar days.

FURTHER INFORMATION CONCERNING CERTAIN TRANSACTION DOCUMENTS

The following is a summary of certain provisions of certain Transaction Documents relating to the Programme and the ETP Securities and should be read in conjunction with the rest of this Base Prospectus. The summaries below are of certain provisions of the Transaction Documents and do not purport to be complete and are subject to the detailed provisions of the relevant Transaction Documents.

Capitalised terms used in the summaries below but not defined therein shall have the meanings given to such terms in Conditions.

Issue Deed

The Issue Deed relating to a Series of ETP Securities will be dated on or about the Series Issue Date of such ETP Securities and will be entered into by the Issuer, the Trustee and the other parties named therein. The Issue Deed is entered into for the purpose of constituting the relevant Series of ETP Securities and sets out the terms of certain Transaction Documents relating to such Series of ETP Securities. Under the terms of the Issue Deed relating to a Series of ETP Securities, the execution of the Issue Deed will constitute the Trust Deed, the Agency Agreement and the Authorised Participant Agreement for such Series of ETP Securities on the terms set out in the Issue Deed.

Trust Deed

Provisions Relating to the Issuer and the Trustee

The Trust Deed relating to a Series of ETP Securities will be entered into as a deed by the Issuer, the Trustee and each other party thereto upon the execution of the Issue Deed. The Issue Deed will incorporate and may amend and/or supplement the Master Trust Terms. The relevant Trust Deed contains the provisions setting out the various obligations of the Issuer and the Trustee with respect to the relevant Series of ETP Securities. Each Trust Deed will be governed by and construed in accordance with English law.

The relevant Trust Deed will constitute the ETP Securities of the relevant Series and will set out the covenants of the Issuer, including, but not limited to, its covenant to pay, provisions relating to its duty to provide various persons with information, to prepare and display certain information, only to do such things as are contemplated within the relevant Trust Deed (most importantly, in relation to the issue of the ETP Securities) and its duties with respect to its obligations under the ETP Securities.

Each Trust Deed will also set out the basis for the remuneration and indemnification of the Trustee in respect of its duties, the conditions for appointment, retirement and removal and contains provisions which are supplemental to certain statutory provisions and which set out the powers of the Trustee and the extent of its duties. The Trustee in respect of a Series of ETP Securities may retire upon giving not less than 60 calendar days' prior written notice to the Issuer, and the Securityholders may by Extraordinary Resolution remove any Trustee, provided that the retirement or removal of a sole trust corporation will not be effective until a trust corporation is appointed as successor Trustee. If the sole trust corporation in respect of a Series of ETP Securities gives notice of retirement or an Extraordinary Resolution is passed for its removal, the Issuer will use all reasonable endeavours to procure that another trust corporation is appointed as the Trustee for such Series but if it fails to do so before the expiry of such 60 calendar day notice period, the Trustee will have the power to appoint a new Trustee.

The Master Trust Terms are available on the Issuer's website at <https://graniteshares.com/europe/etps>.

Security Deed

The Issuer and the Security Trustee have entered into an English law governed (except for certain clauses in respect of the Belgian law security interests granted thereunder, which are governed by Belgian law) amended and restated security deed dated 24 June 2019 in relation to all Series of ETP Securities. The

Security in respect of each Series of ETP Securities is constituted pursuant to the Security Deed and the Security Deed sets out, among other things, provisions relating to the creation and enforcement of the Security, the appointment of receivers, the rights of the Security Trustee in relation to the Secured Property and provisions relating to the application of the net proceeds derived from the realisation of the Secured Property (whether by way of liquidation or enforcement). See Condition 6 (*Security*) for a description of the terms of the Security. Securityholders of a particular Series should note that the Secured Property will be pooled and shared with Securityholders of every other Series of ETP Securities issued (and not yet matured or redeemed in full) by the Issuer.

Agency Agreement

By executing the relevant Issue Deed, the Issuer will be deemed to have entered into an English law governed agency agreement in relation to the ETP Securities on the terms set out in the relevant version of the Master Agency Terms as amended or supplemented by such Issue Deed with each person executing the Issue Deed in the capacity of Issuing and Paying Agent, Trustee, Security Trustee and Paying Agent. The Agency Agreement sets out the duties and obligations of the Issuing and Paying Agent and each other Paying Agent (as applicable) in relation to (i) the issue, payment, replacement, cancellation and listing of the ETP Securities, (ii) the exchange of Global Securities for Definitive Securities (if applicable), and (iii) the basis for the remuneration and indemnification of such agents in respect of their respective duties. The Agency Agreement also sets out the terms for the appointment, resignation (by at least 60 calendar days' prior notice to the Issuer, the Trustee and the Issuing and Paying Agent, which notice shall expire at least 30 calendar days before or after any due date for payment in respect of that Series of ETP Securities) and variation or termination of the appointment of the Issuing and Paying Agent or any Paying Agent (by at least 60 calendar days' prior notice from the Issuer, which notice shall expire at least 30 calendar days before or after any due date for payment in respect of that Series of ETP Securities or on the occurrence of certain events, such as where such agent becomes incapable of acting, is dissolved, is adjudged bankrupt or insolvent, files for bankruptcy, makes a general assignment, arrangement or composition for the benefit of its creditors, consents to the appointment of a receiver, administrator, liquidator or similar official or a resolution is passed for its winding up, official management, liquidation or dissolution).

Authorised Participant Agreement

By executing the relevant Issue Deed, the Issuer will be deemed to have entered into an English law governed authorised participant agreement in relation to the ETP Securities on the terms set out in the relevant version of the Master Authorised Participant Terms, as amended or supplemented by such Issue Deed with each person executing the Issue Deed in the capacity of Issuing and Paying Agent, Swap Counterparty and Authorised Participant. The Authorised Participant Agreement sets out the provisions relating to the subscription by Authorised Participants of ETP Securities of the relevant Series and purchase of ETP Securities of such Series by the Issuer. The Authorised Participant Agreement also sets out the terms on which an Authorised Participant may offer, sell or deliver ETP Securities and contains certain representations, warranties and undertakings of the Authorised Participant in relation thereto.

The Authorised Participant Agreement sets out the conditions for appointment, resignation (by at least 60 calendar days' prior notice to the Issuer and each other Transaction Party), variation (by the Issuer with at least 30 calendar days' prior notice to the Agents, each Authorised Participant and the Swap Counterparty) and termination (automatically and with immediate effect if an Authorised Participant Bankruptcy Event occurs and by the Issuer in any other circumstance by at least 30 calendar days' prior notice, unless there is more than one Authorised Participant, in which case the Issuer may terminate the appointment of any Authorised Participant with immediate effect for a material breach of its obligations which to the extent such breach is capable of being remedied is not remedied within 15 calendar days of the relevant Authorised Participant becoming aware of, or its receiving notice from the Issuer or the Issuing and Paying Agent of such breach or if the Issuer determines, in good faith and in a commercially reasonable manner, that the conduct of such Authorised Participant is detrimental to the reputation or development potential of

the business of the Issuer or any other Transaction Party or the relationships of those entities with third parties). The Authorised Participant Agreement includes a number of cross indemnities amongst the parties, including an indemnity from the Issuer relating to the representations and warranties given by the Issuer in such agreement.

Swap Agreement and Swap Transactions

General

The Issuer and the Swap Counterparty have entered into an English law governed swap agreement dated as of 3 April 2019, as amended and restated as of 24 June 2019 relating to all Series of ETP Securities. The Swap Counterparty in respect of the Swap Agreement is Natixis.

In respect of each Series of ETP Securities, on the Series Issue Date, the Issuer will enter into a Swap Transaction with the Swap Counterparty under the Swap Agreement. In connection with each Tranche of ETP Securities of a Series issued after the related Series Issue Date, the Swap Value of such Swap Transaction will automatically increase by a *pro rata* amount in accordance with the terms of the Swap Agreement.

The Swap Agreement will comprise an agreement in the form of the 2002 ISDA Master Agreement as published by the International Swaps and Derivatives Association, Inc. together with a Schedule thereto, together with each confirmation entered into thereunder, which, in each case, evidences a Swap Transaction, and as such Swap Agreement may be amended, supplemented, novated or replaced from time to time.

Set out below are summaries of certain provisions of the Swap Agreement. Such summaries are qualified in their entirety by the terms of the Swap Agreement.

Payments

The Swap Agreement sets out certain payments from the Issuer to the Swap Counterparty and *vice versa* in respect of each Swap Transaction. The obligations of the Issuer and the Swap Counterparty under the Swap Transaction entered into in connection with a Series of ETP Securities have characteristics that demonstrate capacity to produce funds to service any payments due and payable on such Series of ETP Securities.

Issuer Payments

The Swap Transaction entered into in connection with a Series of ETP Securities will be fully-funded. This means that the Issuer makes an upfront payment to the Swap Counterparty. The Issuer's payments under the Swap Transaction relating to such Series of ETP Securities will be funded using the proceeds from the issues of the relevant ETP Securities.

On each occasion on which an additional Tranche of a Series of ETP Securities is issued, upon receipt by the Issuer of the related subscription proceeds the Issuer will be obliged to pay an amount equal to such proceeds to the Swap Counterparty and the Swap Value of the Swap Transaction entered in connection with such Series of ETP Securities will automatically increase by a *pro rata* amount (subject to the cancellation of such issue prior to settlement in full in accordance with the terms of the Authorised Participant Agreement).

Swap Counterparty Payments

Under each Swap Transaction, an amount is payable by the Swap Counterparty on each occasion on which such Swap Transaction is terminated. The Issuer will fund payments under a Series of ETP Securities from payments it receives under the Swap Transaction entered into in connection with such Series of ETP Securities and its ability to meet payments under the ETP Securities is entirely dependent on its receipt of such payments from the Swap Counterparty.

In connection with the purchase of ETP Securities of a Series by the Issuer, the Swap Transaction entered into in connection with such Series of ETP Securities will be terminated by a *pro rata* amount and an amount will be payable by the Swap Counterparty to the Issuer equal to (i) where index pricing settlement applies, (a) the Value per ETP Security for the related trade date of such purchase, multiplied by (b) the number of ETP Securities being purchased by the Issuer, less (c) any applicable Swap Unwind Costs or (ii) where agreed pricing settlement applies, (a) the price per ETP Security agreed in respect of such purchase, multiplied by (b) the number of ETP Securities being purchased by the Issuer, less (c) any applicable Swap Unwind Costs.

On termination of the Swap Transaction entered into in connection with a Series of ETP Securities at the end of its scheduled term, an amount will be payable by the Swap Counterparty to the Issuer equal to (i) the Value per ETP Security for the Final Redemption Valuation Date, multiplied by (ii) the number of ETP Securities outstanding as at such date.

If a Swap Early Termination Date is designated (or deemed to be designated) in respect of a Swap Transaction entered into in connection with a Series of ETP Securities following the occurrence of an event where such Swap Transaction is the only Swap Transaction that is being terminated as a result of such event (including certain Early Redemption Events, a cancellation of the Index or an exercise by the Swap Counterparty of its right to terminate early such Swap Transaction), such Series of ETP Securities (and not any other Series of ETP Securities) will be redeemed early, an amount will be payable by the Swap Counterparty to the Issuer equal to (i) the Value per ETP Security for such affected Series of ETP Securities and Early Termination Date, multiplied by (ii) the number of ETP Securities outstanding in respect of such affected Series of ETP Securities as at such Early Termination Date and each ETP Security of such Series will be redeemed early at such amount.

If a Swap Early Termination Date is designated (or deemed to be designated) in respect of all outstanding Swap Transactions under the Swap Agreement (which would occur if, for example, the Swap Counterparty defaults on its payment obligations in respect of any Swap transaction or the Swap Counterparty becomes insolvent), all outstanding Series of ETP Securities will be redeemed early. In such circumstances, an amount will be payable by the Swap Counterparty to the Issuer under the Swap Agreement equal to the sum of the EUR equivalent (to the extent not already denominated in EUR) of the Swap Value of each outstanding Swap Transaction as at the Early Termination Date (the “**Aggregated Early Termination Amount**”). The Swap Value in respect of a Swap Transaction will be equal to (i) the Value per ETP Security for the relevant Series of ETP Securities connected to such Swap Transaction as at the Early Termination Date, multiplied by (ii) the number of ETP Securities outstanding in respect of the relevant Series of ETP Securities connected to such Swap Transaction as at the Early Termination Date. Each ETP Security of every Series of ETP Securities will be redeemed early and the Early Redemption Amount per ETP Security of a Series of ETP Securities will be funded by a *pro rata* share of such EUR denominated Aggregated Early Termination Amount, provided that where a Series of ETP Securities is not denominated in EUR, then such *pro rata* share will need to be converted into the Specified Currency for such Series of ETP Securities, with such converted amount funding the Early Redemption Amount per ETP Security for such Series of ETP Securities.

In connection with any such early termination of all outstanding Swap Transactions under the Swap Agreement, if the Swap Counterparty has not paid in full the Aggregated Early Termination Amount to the Issuer when due, then the Issuer may enforce the security constituted under the Swap Pledge Agreement and the Posted Collateral would be available to be sold in order to pay off amounts owing by the Swap Counterparty in respect of every Swap Transaction entered into in connection with a Series of ETP Securities under the Swap Agreement.

Payment to the Issuer under any Swap Transaction will be made to such account as the Issuer may direct from time to time.

Tax

All payments under the Swap Agreement will be made subject to any withholding or deduction for, or on account of, any tax. In the event of any such withholding or deduction relating to an amount payable to the Issuer, the amount received by the Issuer under the Swap Agreement will be reduced.

Disruption Events

Under the terms of the Swap Agreement, if the Swap Counterparty determines that a Disruption Event in respect of a Swap Transaction has occurred or is continuing, it may (but is not obliged to) give notice of its determination to the Issuer and the Swap Calculation Agent. If the Swap Counterparty gives a Disruption Event Notice to the Issuer and the Swap Calculation Agent, the Swap Calculation Agent may, but is not obliged to, determine and notify to the Issuer on the immediately following London and Paris Business Day a Closing Index Level in respect of such Series of ETP Securities and Scheduled Valuation Day in accordance with the provisions of the Swap Agreement as further described in Condition 9(b). If, however, the Swap Calculation Agent does not so determine and notify to the Issuer a Closing Index Level by the immediately following London and Paris Business Day, determination of the Closing Index Level for such Series of ETP Securities and Scheduled Valuation Day (and each subsequent Disrupted Day) will be postponed until such Disruption Event has been resolved or is no longer continuing, or, where such Disruption Event continues for nine consecutive Scheduled Valuation Days, until the London and Paris Business Day immediately following the end of such nine consecutive Scheduled Valuation Day period. Determination and publication of the Swap Value for such Scheduled Valuation Day (and each such Disrupted Day) shall also be postponed accordingly.

Index

The Index to which a Series of ETP Securities and the Swap Transaction entered into in connection with such Series of ETP Securities relates will be specified in the relevant Final Terms and the confirmation relating to such Swap Transaction. If the relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor acceptable to the Swap Calculation Agent or (ii) replaced by a successor index using, in the determination of the Swap Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of the Index, then such successor index or index calculated and announced by the successor sponsor shall be deemed to be the Index for the purposes of such Swap Transaction and, pursuant to Condition 10 (*Successor Index and Index Sponsor*), such Series of ETP Securities.

Term of Swap Transactions

The initial term of a Swap Transaction entered into in connection with a Series of ETP Securities will be (i) the date falling five calendar years after the Series Issue Date of such Series of ETP Securities or (ii) such other date as may be specified in the Final Terms. See Condition 11(c) (*Term of the Swap Transaction*) for a description of the provisions relating to the extension of the term, or early termination, of a Swap Transaction entered into in connection with a Series of ETP Securities.

Adjustment Events

Under the terms of the Swap Agreement, if the Swap Counterparty determines that an Adjustment Event in respect of a Swap Transaction has occurred or is continuing, it may (but is not obliged to) give notice of its determination to the Issuer and the Swap Calculation Agent. If the Swap Counterparty gives an Adjustment Event Notice to the Issuer and the Swap Calculation Agent in respect of any Scheduled Valuation Day, the Swap Calculation Agent shall determine as soon as reasonably practicable and in good faith and a commercially reasonable manner (i) whether in its opinion it is appropriate to make one or more adjustments to any of the terms of such Swap Transaction and/or any of the terms of the Conditions of the Series of ETP Securities in connection with which such Swap Transaction was entered into to account for

the economic effect of the relevant Adjustment Event on such Swap Transaction and such Series of ETP Securities and (ii) the nature and effective date of such adjustment(s).

Swap Pledge Agreement

The Issuer and the Swap Counterparty have entered into a Belgian law governed pledge agreement dated 24 June 2019 in relation to the liabilities and obligations owed by the Swap Counterparty to the Issuer under the Swap Agreement (including all Swap Transactions thereunder) and the Account Control Agreement. Under the Swap Pledge Agreement, the Swap Counterparty has granted a security interest over the Swap Collateral Accounts and certain of the Swap Counterparty's rights under the Swap Collateral Custody Agreement in favour of the Issuer in respect of the payment or performance by the Swap Counterparty of such liabilities and obligations. The Swap Pledge Agreement also sets out, among other things, provisions relating to the creation and enforcement of such security, the rights of the Issuer in relation to the secured property and provisions relating to the application of the proceeds derived from the realisation of such secured property. See Condition 6(g) (Enforcement of Security Constituted Under the Swap Pledge Agreement) for a description of the terms of enforcement of such security and its interaction with the Security Deed

Account Control Agreement

The Issuer, the Swap Counterparty and the Swap Collateral Custodian have entered into a triparty account control agreement dated 29 March 2019, as novated (i.e. transferred) by a deed of novation dated 24 June 2019 between, amongst others, the Issuer, the Swap Collateral Custodian and the Swap Counterparty pursuant to which the Swap Counterparty will be required, from time to time, to transfer to the Swap Collateral Accounts held with the Swap Collateral Custodian, securities and/or cash at least equal to the value of the Issuer's exposure under the Swap Agreement. Any collateral to be posted to the Swap Collateral Accounts must meet certain eligibility criteria, as set out therein and as further described below.

The Account Control Agreement sets out the duties of the Swap Collateral Custodian including, amongst other things, the obligation to establish and maintain one or more account(s) in the name of the Swap Counterparty for the deposit of securities meeting certain eligibility criteria, which account(s) shall be the subject of a security interest in favour of the Issuer created pursuant to the Swap Pledge Agreement.

The Account Control Agreement also:

- sets out how the Swap Collateral Custodian will determine, as of any given day, whether there is a margin excess or margin deficit and therefore whether Posted Collateral needs to be returned to the Swap Counterparty or whether the Swap Counterparty needs to transfer more Eligible Collateral into the Swap Collateral Accounts;
- the conditions that must be satisfied if the Swap Counterparty would like to replace Posted Collateral with other Eligible Collateral or substitution cash ("**Substitution Cash**");
- provides for how the Issuer or the Swap Counterparty can access the Posted Collateral following an enforcement or release, as applicable, of the security over the Posted Collateral and the Swap Collateral Accounts;
- sets out the basis for the remuneration and indemnification of the Swap Collateral Custodian in respect of its duties;
- provides that any security interest of the Swap Collateral Custodian over the Posted Collateral and the Swap Collateral Accounts for the payment of any fees, charges, expenses and other amounts owed to it as Swap Collateral Custodian shall be subordinated to, and rank in order of priority behind, the security interest granted by the Swap Counterparty to the Issuer under the Swap Pledge Agreement;

- provides that the Swap Collateral Custodian may appoint and utilise sub-custodians and clearing systems in connection with its performance thereunder (together with the Swap Collateral Custodian's level of liability with respect to the actions or inactions of such sub-custodians and clearing systems); and
- sets out the conditions for resignation (upon not less than 90 calendar days' prior written notice to the Issuer and the Swap Counterparty) and termination of the appointment of the Swap Collateral Custodian (by written notice from the Issuer that it no longer claims any security interest in the Posted Collateral and the Swap Collateral Accounts, by joint written notice from the Issuer and the Swap Counterparty that the Swap Pledge Agreement has been terminated or upon termination of the Swap Collateral Custody Agreement).

TAXATION

The following is a summary of certain aspects of the tax treatment in respect of payments of the Issuer and amounts paid in respect of the ETP Securities by the Issuer (or an agent appointed by it) in accordance with the terms and conditions of such ETP Securities, based on the laws and practices currently in force which are subject to change after the date of this Base Prospectus and which changes could be made on a retrospective basis. It is limited to the country of incorporation of the Issuer and those countries in which admission to trading may be sought or offers for which a prospectus is required under the Prospectus Regulation may be made pursuant to this Base Prospectus.

It does not relate to any other tax consequences or to withholdings in respect of payments by other persons (such as custodians, depositaries or other intermediaries) unless otherwise specified. Particular rules may apply to certain classes of taxpayers holding the ETP Securities. The summary does not purport to be exhaustive and does not constitute tax or legal advice and the comments below are of a general nature only. With respect to certain structured financial instruments, such as the ETP Securities, it may be the case that in certain jurisdictions there is currently neither case law nor comments of the financial authorities as to the tax treatment of such financial instruments. Accordingly, there is a risk that the relevant financial authorities and courts or the paying agents in such jurisdictions may adopt a view different from that summarised below. Each investor should consult a tax adviser as to the tax consequences relating to its particular circumstances resulting from the purchase, holding, sale and redemption of the ETP Securities and the receipt of payments thereon under the laws of their country of residence, citizenship or domicile.

All payments in respect of the ETP Securities by the Issuer or by an agent appointed by the Issuer will be subject to any applicable withholding taxes.

None of the Issuer, the Arranger or any Transaction Party makes any representation or warranty as to the tax consequences to any investor of the acquisition, holding or disposal of the ETP Securities. The tax consequences for each investor in the ETP Securities can be different and therefore investors and counterparties are advised to consult with their tax advisers as to their specific consequences.

Prospective investors should be aware that the acquisition, holding, transfer or disposal of the ETP Securities, and / or receipt of payments under ETP Securities may result in tax consequences to any investor, which may arise in, but are not limited to, the jurisdiction of the Issuer or the jurisdiction of residence, domicile, citizenship or incorporation of the relevant investor. Prospective investors should consult their own professional advisers concerning such possible tax consequences.

Information Reporting

Information relating to the ETP Securities, their holders and beneficial owners may be required to be provided to tax authorities in certain circumstances pursuant to domestic or international reporting and transparency regimes. This may include (but is not limited to) information relating to the value of the ETP Securities, amounts paid or credited with respect to the ETP Securities, details of the holders or beneficial owners of the ETP Securities and information and documents in connection with transactions relating to the ETP Securities. In certain circumstances, the information obtained by a tax authority may be provided to tax authorities in other countries.

United States

Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a “foreign financial institution” may be required to withhold on certain payments it makes (“**foreign passthru payments**”) to persons that fail to meet certain certification, reporting, or related requirements. The Issuer is a foreign financial institution for these purposes. A number of jurisdictions have entered into, or have

agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("IGAs"), which modify the way in which FATCA applies in their jurisdictions. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the ETP Securities, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the ETP Securities, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the ETP Securities, such withholding would not apply to foreign passthru payments prior to 1 January 2019. The Issuer intends to treat the ETP Securities as equity for U.S. federal income tax purposes (and pursuant to the terms and conditions, Securityholders agree to do the same) and accordingly, the ETP Securities will not be eligible for grandfathering under FATCA. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the ETP Securities, no person will be required to pay additional amounts as a result of the withholding.

FATCA is particularly complex and its application is uncertain at this time. Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the ETP Securities.

Germany

The following is a general description of certain tax considerations relating to the purchasing, holding and disposing of the ETP Securities. It does not purport to be a complete analysis of all tax considerations relating to the ETP Securities. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular holder of the ETP Securities. The discussions that follow are based upon the applicable German laws in force and their interpretation on the date of this Base Prospectus. These tax laws and interpretations are subject to change that may occur after such date, even with retrospective effect.

Prospective holders of the ETP Securities should consult their own tax advisers as to the particular tax consequences of subscribing, purchasing, holding and disposing the ETP Securities, including the application and effect of any federal, state or local taxes, under the tax laws of Germany and each country of which they are residents or citizens.

Income Tax

ETP Securities Held by Tax Residents as Private Assets

In case the ETP Securities are held as private assets (*Privatvermögen*) by an individual investor whose residence or habitual abode is in Germany, any amounts received with respect to the ETP Securities (including default interest (if any)) are qualified as proceeds from receivables (*Erträge aus sonstigen Kapitalforderungen*). Although the German income tax code distinguishes between the taxation of current proceeds from receivables and the taxation of capital gains from receivables, all proceeds are taxed as capital investment income (*Einkünfte aus Kapitalvermögen*) at a 25 per cent. flat tax (*Abgeltungsteuer*) (plus a 5.5 per cent. solidarity surcharge (*Solidaritätszuschlag*) thereon and, if applicable to the individual investor, church tax).

Individual investors are entitled to a tax allowance (*Sparer-Pauschbetrag*) for amounts treated as investment income of €801 per year (€1,602 for jointly assessed individual investors). The tax allowance is considered for purposes of the withholding tax if the investor files a withholding tax exemption request (*Freistellungsauftrag*) with the respective Domestic Paying Agent (as described below) where the securities deposit account to which the ETP Securities are allocated is held. The deduction of the effective income related expenses for tax purposes is not possible.

Capital losses from the sale or redemption of the ETP Securities held as private assets should generally be tax-recognised irrespective of the holding period of the ETP Securities. According to the view of German tax authorities losses suffered upon a bad debt loss (*Forderungsausfall*) and a waiver of a receivable

(*Forderungsverzicht*) (to the extent the waiver does not qualify as a hidden contribution) shall, in general, not be deductible for tax purposes. With respect to a bad debt loss the German federal tax court has recently rejected the view of German tax authorities. With respect to a (voluntary) waiver of receivable a lower German fiscal court confirmed the view of German tax authorities in a final decision. Furthermore, capital losses might not be recognised by the German tax authorities if the ETP Securities are sold or redeemed at a market price, which is lower than the transaction costs or if the level of transaction costs is restricted because of a mutual agreement that the transaction costs are calculated by subtracting a certain amount from the sales price. This view has however been challenged in 2014 by a final judgement of a German lower fiscal court. Any tax-recognised capital losses may not be used to offset other income like employment or business income but may only be offset against investment income. Capital losses not utilised in one annual assessment period may be carried forward into subsequent assessment periods but may not be carried back into preceding assessment periods.

The flat tax is generally collected by way of withholding. If the ETP Securities are kept or administered in a domestic securities deposit account by a German credit or financial services institution (or by a German branch of a foreign credit or financial services institution), or by a German securities trading firm (*Wertpapierhandelsunternehmen*) or a German securities trading bank (*Wertpapierhandelsbank*) (together, the “**Domestic Paying Agent**”) since their acquisition, a 25 per cent. withholding tax, plus a 5.5 per cent. solidarity surcharge thereon (and, if applicable to the individual investor, church tax), is levied on capital gains from the sale or redemption of the ETP Securities and default interest (if any), resulting in a total withholding tax charge of 26.375 per cent. If the ETP Securities were sold or redeemed after being transferred to a securities deposit account with a Domestic Paying Agent, the 25 per cent. withholding tax (plus solidarity surcharge thereon and, if applicable to the individual investor, church tax) would be levied on 30 per cent. of the proceeds from the sale or the redemption, as the case may be, unless the investor or the previous account bank was able and allowed to provide evidence for the investor’s actual acquisition costs to the new Domestic Paying Agent. The applicable withholding tax rate is in excess of the aforementioned rate if church tax is applicable to the individual investor. In this case the collection of church tax on capital gains from the sale or redemption of the ETP Securities and default interest (if any) is provided for as a standard procedure unless the noteholder has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*).

If no Domestic Paying Agent (as defined above) is involved in the payment process or if no or not sufficient withholding tax is withheld by a Domestic Paying Agent, the Securityholder will have to include its income from the ETP Securities in its tax return and the flat income tax of 25 per cent., plus a 5.5 per cent. solidarity surcharge thereon and, if applicable to the individual investor, church tax, will be collected by way of assessment.

Payment of the flat tax will generally satisfy any income tax liability of the Securityholders in respect of such investment income. Securityholders may apply for a tax assessment on the basis of general rules applicable to them if the resulting income tax burden is lower than 25 per cent.

Please note that the coalition agreement between the German christdemocratic party and the German socialdemocratic party for the formation of a new German federal government provides that the flat tax regime shall be partially abolished for certain capital investment income. The coalition agreement further provides that the solidarity surcharge shall be abolished in stages provided that the individual income does not exceed certain thresholds. There is however no draft bill available yet and a lot of details are hence still unclear. That means however that income received by investors holding the ETP Securities as private assets may be taxed at individual progressive income tax rates of up to 45 per cent. in the future (plus a 5.5 per cent. solidarity surcharge thereon, unless abolished or reduced in the future, and church tax, if applicable to the individual investor).

ETP Securities Held by Tax Residents as Business Assets

If the ETP Securities are held as business assets (*Betriebsvermögen*) by an individual or corporate investor that is tax resident in Germany (i.e. persons whose residence, habitual abode, statutory seat, or place of effective management and control is located in Germany), capital gains from the sale or redemption of the ETP Securities and default interest (if any) are subject to personal or corporate income tax (plus solidarity surcharge thereon and, if applicable to the individual investor, church tax). Losses realised on the sale or redemption of the ETP Securities may be offset in particular against items of positive income under the general tax rules or deducted as part of losses carried back or forward, although the minimum taxation rules (Section 10d(1), (2) EStG) must be observed. Capital gains from the sale or redemption of the ETP Securities and default interest (if any) will also be subject to trade tax.

No withholding is generally required on capital gains from the sale or redemption of ETP Securities derived by German resident corporate Securityholders and upon application by individual Securityholders holding the ETP Securities as domestic business assets. Apart from that if a Domestic Paying Agent (as defined above) is involved in the payment process tax at a rate of 25 per cent. (plus a 5.5 per cent. solidarity surcharge thereon and, if applicable to the individual investor, church tax) will also be withheld from capital gains from the sale or redemption of the ETP Securities and default interest (if any). With respect to church tax applicable to an individual investor please see above under "*ETP Securities Held by Tax Residents as Private Assets*". Any German withholding tax (including surcharges) is generally fully creditable against the investor's personal or corporate income tax liability or refundable, as the case may be.

ETP Securities Held by Non-tax Residents

Amounts derived from the ETP Securities by holders who are not tax resident in Germany are in general exempt from German income taxation, and no withholding tax shall be withheld, unless (i) the ETP Securities are held as business assets of a German permanent establishment of the investor or by a permanent German representative of the investor, or (ii) the income is paid by a Domestic Paying Agent against presentation of the ETP Securities (if applicable) (so-called over-the-counter transaction, *Tafelgeschäft*).

If the income derived from the ETP Securities is subject to German taxation according to (i) or (ii) above, the income is subject to German income taxation and withholding tax similar to that described above for German tax residents. Under certain circumstances, foreign investors may benefit from tax reductions or tax exemptions under applicable double tax treaties (*Doppelbesteuerungsabkommen*) entered into with Germany.

Investment Tax Act

According to the German Investment Tax Act, the Issuer would qualify as foreign investment fund for German Investment Tax Act purposes if it qualifies as an AIF under the EU AIFMD. In this case, it can not be excluded that Securityholders will be taxed on the basis of any annual increase in the value of the relevant Index even if such increase in value has not yet been realised by the Issuer or distributed to a Securityholder. If an ETP Security is subsequently sold or redeemed and any increase in value of the relevant Index is realised the taxable capital gain from the sale or redemption of the ETP Securities will be reduced accordingly. It is however also possible that only virtual gains will be subject to tax at a level of a Securityholder, which have never been realised, if the value of the relevant Index subsequently decreases again until the sale or redemption of an ETP Security.

Inheritance and Gift Tax

The transfer of the ETP Securities to another person by way of gift or inheritance may be subject to German gift or inheritance tax, respectively if, among other things:

- (i) the testator, the donor, the heir, the donee or any other acquirer had his residence, habitual abode or, in case of a corporation, association (*Personenvereinigung*) or estate (*Vermögensmasse*), has its seat or place of management in Germany at the time of the transfer of property,
- (ii) except as provided under (i), the testator's or donor's ETP Securities belong to business assets attributable to a permanent establishment or a permanent representative in Germany.

Special regulations may apply to certain German expatriates.

Prospective investors are urged to consult with their tax advisor to determine the particular inheritance or gift tax consequences in light of their particular circumstances.

Other Taxes

No stamp, issue, registration, values added or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of the ETP Securities. However, under certain circumstances entrepreneurs may choose liability to value added tax with regard to the sale of the ETP Securities to other entrepreneurs which would otherwise be tax exempt. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany.

Ireland

The following is a summary of certain Irish tax consequences of the purchase, ownership and disposition of the ETP Securities. The summary does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a decision to purchase, own or dispose of the ETP Securities. The summary relates only to the position of persons who are the absolute beneficial owners of the ETP Securities and may not apply to certain other classes of persons such as dealers in securities.

The summary is based upon Irish tax laws and the practice of the Irish Revenue Commissioners as in effect on the date of this Base Prospectus, which are subject to prospective or retroactive change. The summary does not constitute tax or legal advice and the comments below are of a general nature only. Prospective investors in the ETP Securities should consult their own advisors as to the Irish or other tax consequences of the purchase, beneficial ownership and disposition of the ETP Securities including, in particular, the effect of any state or local tax laws.

Income Tax

In general, persons who are resident in Ireland are liable to Irish taxation on their world-wide income whereas persons who are not resident in Ireland are only liable to Irish taxation on their Irish source income. All persons are under a statutory obligation to account for Irish taxation on a self-assessment basis and there is no requirement for the Irish Revenue Commissioners to issue or raise an assessment.

An ETP Security issued by the Issuer may be regarded as property situate in Ireland (and hence Irish source income) on the grounds that a debt is deemed to be situate where the debtor resides. However, the interest earned on such ETP Securities is exempt from income tax if paid to a person who is not a resident of Ireland and who for the purposes of Section 198 of the Taxes Consolidation Act 1997 (as amended) ("**TCA 1997**") is regarded as being a resident of a relevant territory. A relevant territory for this purpose is a Member State of the European Communities (other than Ireland) or not being such a Member State a territory with which Ireland has entered into a double tax treaty that has the force of law or, on completion of the necessary procedures, will have the force of law and such double tax treaty contains an article dealing with interest or income from debt claims. A list of the countries with which Ireland has entered into a double tax treaty is available on www.revenue.ie.

Relief from Irish income tax may also be available under other exemptions contained in Irish tax legislation or under the specific provisions of a double tax treaty between Ireland and the country of residence of the holder of the ETP Security.

If the above exemptions do not apply it is understood that there is a long standing unpublished practice whereby no action will be taken to pursue any liability to such Irish tax in respect of persons who are regarded as not being resident in Ireland except where such persons:

- (a) are chargeable in the name of a person (including a trustee) or in the name of an agent or branch in Ireland having the management or control of the interest; or
- (b) seek to claim relief and / or repayment of tax deducted at source in respect of taxed income from Irish sources; or
- (c) are chargeable to Irish corporation tax on the income of an Irish branch or agency or to income tax on the profits of a trade carried on in Ireland to which the interest is attributable.

There can be no assurance that this practice will continue to apply.

Withholding Taxes

In general, withholding tax (currently at the rate of 20%.) must be deducted from interest payments made by an Irish company such as the Issuer. However, Section 246 TCA 1997 (“**Section 246**”) provides that this general obligation to withhold tax does not apply in respect of, for example, interest payments made by the Issuer to a person, who by virtue of the law of the relevant territory, is resident for the purposes of tax in a relevant territory (see above for details). This exemption does not apply if the interest is paid to a company in connection with a trade or business which is carried on in Ireland by the company through a branch or agency.

Apart from Section 246, Section 64 TCA 1997 (“**Section 64**”) provides for the payment of interest on a “Quoted Eurobond” without deduction of tax in certain circumstances. A Quoted Eurobond is defined in Section 64 as a security which:

- (a) is issued by a company;
- (b) is quoted on a recognised stock exchange (this term is not defined but is understood to mean an exchange which is recognised in the country in which it is established such as the London Stock Exchange or the Italian Stock Exchange); and
- (c) carries a right to interest.

There is no obligation to withhold tax on Quoted Eurobonds where:

- (a) the person by or through whom the payment is made is not in Ireland, or
- (b) the payment is made by or through a person in Ireland, and
- (c) the Quoted Eurobond is held in a recognised clearing system (Euroclear, Clearstream Banking SA, Clearstream Banking AG and the Depository Trust Company of New York have, amongst others, been designated as recognised clearing systems); or
- (d) the person who is the beneficial owner of the Quoted Eurobond and who is beneficially entitled to the interest is not resident in Ireland and has made an appropriate written declaration to this effect.

In certain circumstances, Irish encashment tax may be required to be withheld at the current rate of 25% from interest on any ETP Security, where such interest is collected by a person in Ireland on behalf of any holder of ETP Securities.

Capital Gains Tax

A holder of ETP Securities will not be subject to Irish taxes on capital gains provided that such holder is neither resident nor ordinarily resident in Ireland and such holder does not have an enterprise, or an interest

in an enterprise, which carries on business in Ireland through a branch or agency or a permanent representative to which or to whom the ETP Securities are attributable.

Capital Acquisitions Tax

If the ETP Securities are comprised in a gift or inheritance taken from an Irish domiciled, resident or ordinarily resident disponer or if the donee / successor is resident or ordinarily resident in Ireland, or if any of the ETP Securities are regarded as property situate in Ireland, the donee / successor may be liable to Irish capital acquisitions tax. As a result, a donee / successor may be liable to Irish capital acquisitions tax, even though neither the disponer nor the donee / successor may be domiciled, resident or ordinarily resident in Ireland at the relevant time.

Stamp duty

For as long as the Issuer is a qualifying company within the meaning of Section 110 TCA 1997, no Irish stamp duty will be payable on either the issue or transfer of the ETP Securities, provided that the money raised by the issue of the ETP Securities is used in the course of the Issuer's business.

Provision of Information

Generally

Holders of ETP Securities should be aware that where any amounts regarded as interest under Irish law or other payment on ETP Securities is paid to them by or through an Irish paying agent or collection agent then the relevant person may be required to supply the Irish Revenue Commissioners with details of the payment and certain details relating to the holder. Where the holder of the ETP Securities is not Irish resident, the details provided to the Irish Revenue Commissioners may, in certain cases, be passed by them to the tax authorities of the jurisdiction in which the holder is resident for taxation purposes.

Italy

With regard to certain innovative or structured financial instruments there is currently no case law as to the tax treatment of such financial instruments. Accordingly, it cannot be excluded that the Italian tax authorities will change its current view, as specified below, and courts will adopt a view different from that outlined below. All of the following is subject to change, which change could apply retroactively and could affect the continued validity of this summary. Because it is a general summary, it does not purport to be a complete analysis of all tax considerations that may be relevant to the decision to purchase, own or dispose of the ETP Securities, nor does it purport to deal with the tax consequences applicable to all categories of prospective beneficial owners of ETP Securities, some of which may be subject to special rules. Securityholders should consult their own tax advisors as to the Italian or other tax consequences of the purchase, holding and disposition of ETP Securities including, in particular, the application to their specific situations of the tax consequences discussed below.

This summary assumes that the Issuer is not a tax resident nor deemed to be a tax resident of Italy and that it has no permanent establishment within the Italian territory.

Italian corporate and individual income tax

Provided that the ETP Securities qualify broadly as derivative instruments for the purposes of Italian tax law, which they are expected to do, the following consequences apply to a Securityholder pursuant to Article 67(1)(c-quarter) of Presidential Decree No. 917 of 22 December 1986, as subsequently amended, and according to the Italian tax authority's Resolution no. 72/E of 12 July 2010.

According to Legislative Decree No. 461 of 21 November 1997, where the Italian resident Securityholder is: (i) an individual not engaged in an entrepreneurial activity to which the ETP Securities are connected, (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, or (iv) an investor

exempt from Italian corporate income taxation, capital gains realised on the sale or redemption of the ETP Securities are subject to a 26 per cent. substitute tax (imposta sostitutiva).

In this respect, Securityholders who are Italian resident individuals may opt for three different taxation regimes (regime della dichiarazione, regime del risparmio amministrato, regime del risparmio gestito). This option may result in certain impacts that the prospective investors should consider with their tax advisers. In particular, provided that certain conditions are met, the depository is responsible for accounting for imposta sostitutiva and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Securityholder or using funds provided by the Securityholder for this purpose. Under certain conditions, capital losses may be deducted from the above-mentioned capital gains.

Where an Italian resident Securityholder is a company or similar commercial entity, or the Italian permanent establishment of a foreign commercial entity to which the ETP Securities are effectively connected, capital gains arising from the ETP Securities will not be subject to imposta sostitutiva, but must be included in the relevant Securityholder's income tax return and are therefore subject to Italian corporate tax (IRES, currently applicable at a rate of 24 per cent.) and, in certain cases, depending on the status of such holder, may also have to be included in its taxable base for regional tax purposes (IRAP, currently applicable at a rate of 3.9 per cent). The IRAP rate may be increased in certain Italian regions; IRAP rate has also been increased by article 23(5) of Law Decree no. 98 of 6 July 2011 to 4.65 per cent. for banks and other financial institutions and to 5.9 per cent. for the insurance companies as indicated, respectively, under article 6 and article 7 of Legislative Decree no. 446 of 15 December 1997).

Capital gains realised by non-Italian resident Securityholders without a permanent establishment in Italy are not subject to Italian taxation, if (i) the ETP Securities are held outside of Italy, (ii) the ETP Securities have been deposited in Italy and are traded on a regulated market or (iii) the ETP Securities have been deposited in Italy but are not traded on a regulated market and the beneficial owner of proceeds from the relevant ETP Securities complies with certain filing requirements and is a resident of a country which is included in the list of jurisdictions allowing exchange of information with the Italian tax authorities as provided under the relevant list which is contained in a specific Ministerial Decree and in the following periodical updates.

Should the ETP Securities be deemed to constitute units in foreign investment funds, proceeds from capital deriving from the ETP Securities should be included in the taxable income of the Italian resident recipient and may be subject to a 26 per cent. withholding tax applied by Italian resident entities, if any, which intervene in the payment of the relevant proceeds as well as in the repurchase or negotiation of the ETP Securities.

Italian inheritance and gift taxes

Law No. 286 of 24 November 2006, which has converted into law, with amendments, Law Decree No. 262 of 3 October 2006, has introduced inheritance and gift tax to be paid at the transfer of assets (such as the ETP Securities) and rights by reason of death or gift.

As regards the inheritance and gift tax to be paid at the transfer of the ETP Securities by reason of death or gift, the following rates apply:

- (i) transfers in favour of spouses and direct descendants or direct relatives are subject to a rate of 4 per cent. on the value of the inheritance or the gift exceeding € 1,000,000.00 for each transferor;
- (ii) transfers in favour of brothers and sisters are subject to a rate of 6 per cent. on the value of the inheritance or the gift exceeding € 100,000.00 for each transferor;
- (iii) transfers in favour of relatives up to the fourth degree or relatives-in-law to the third degree, are subject to a rate of 6 per cent. on the entire value of the inheritance or the gift;

- (iv) any other transfer is subject to a rate of 8 per cent. on the entire value of the inheritance or the gift; and
- (v) transfers in favour of seriously disabled persons are subject to a tax at the relevant rate as described above on the value of the inheritance or the gift exceeding € 1,500,000.00 for each transferor.

Moreover, an anti-avoidance rule is provided by Law No. 383 of 18 October 2001 for any gift of assets (such as the ETP Securities) which, if sold for consideration, would give rise to capital gains subject to the imposta sostitutiva provided for by Legislative Decree No. 461 of 21 November 1997. In particular, if the donee sells the ETP Securities for consideration within five years from the receipt thereof as a gift, the donee is required to pay the relevant imposta sostitutiva on capital gains as if the gift had never taken place.

Stamp duty

Pursuant to Article 13. Paragraph 2-ter, of the Tariff Part I Presidential Decree 26 October 1972, No. 642, as subsequently amended, a proportional stamp duty applies on an annual basis to the periodic reporting communications sent by financial intermediaries, carrying out their business activity within the Italian territory, to their clients for ETP Securities deposited therewith. The stamp duty applies at the current rate of 0.2 per cent.; this stamp duty is determined on the basis of the market value or — if no market value figure is available — the nominal value or redemption amount of the ETP Securities held. If the client is not an individual, the stamp duty cannot be higher than € 14,000.00.

It may be understood that the stamp duty applies both to Italian resident and non-Italian resident investors, to the extent that the ETP Securities are held with an Italian-based financial intermediary.

Wealth Tax on securities deposited abroad

Pursuant to Article 19(18) of Decree No. 201 of 6 December 2011, converted with amendments by Law No. 214 of 22 December 2011, Italian resident individuals, non commercial entities and partnerships and similar entities holding the ETP Securities outside the Italian territory are required to pay in its own annual tax returns an additional tax at the current rate of 0.2 per cent. for each year.

This tax is calculated on the market value of the ETP Securities at the end of the relevant year or — if no market value figure is available — the nominal value or the redemption value of such financial assets held outside the Italian territory. Taxpayers are entitled to an Italian tax credit equivalent to the amount of any wealth tax paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due). The maximum wealth tax amount due is set at €14,000.00 per year for taxpayers other than individuals.

Tax Monitoring Obligations

Italian-resident individuals (and certain other entities) are required to report in their yearly income tax return, according to Law Decree No. of 28 June 1990, converted with amendments by Law No. 227 of 4 August 1990 (“**Decree 167**”), for tax monitoring purposes, the amount of notes held abroad (or beneficially owned abroad under Italian anti-money laundering provisions). This also applies in the case that at the end of the tax year, notes are no longer held by the above Italian-resident individuals and entities.

However, the above reporting obligation is not required in case the financial assets are deposited for management with Italian banks, SIMs, fiduciary companies or other professional intermediaries, indicated in Article 1 of Decree 167, or if one of such intermediaries intervenes as a counterpart in their transfer, provided that income deriving from such financial assets is collected through the intervention of such an intermediary.

United Kingdom

The following is a summary of the Issuer's understanding of current United Kingdom tax law and United Kingdom HM Revenue & Customs ("HMRC") practice as at the date of this Base Prospectus relating to certain aspects of the United Kingdom tax treatment of ETP Securities. The comments do not deal with other United Kingdom tax aspects of acquiring, holding or disposing of ETP Securities.

The following summary relates to investors who are individuals (i.e. natural persons) acting in a private capacity and who are resident and domiciled in the United Kingdom for tax purposes ("UK Individuals") or that are legal persons within the charge to United Kingdom corporation tax and hold ETP Securities as an investment. The summary relates only to the position of persons who are absolute beneficial owners of ETP Securities and does not deal with the position of certain categories of investor, such as dealers and persons connected with the Issuer.

This summary is intended only as a general guide and investors and prospective investors are strongly urged to seek tax advice from appropriate professional advisers regarding an investment in ETP Securities, including as to how any Series of ETP Securities will be classified for tax purposes and the tax consequences of such classification.

Investors and prospective investors in ETP Securities should be aware that the particular terms of issue of any Series of ETP Securities as specified in the relevant Final Terms may affect how that Series of ETP Securities is classified for United Kingdom tax purposes and, in general, the United Kingdom tax treatment of that Series of ETP Securities. The United Kingdom tax position of specific holders of ETP Securities will depend on their own specific circumstances. Accordingly, the following is a general guide and should be treated with appropriate caution.

The comments below are made on the assumption that the Issuer is neither resident in the United Kingdom for United Kingdom tax purposes nor carrying on a trade in the United Kingdom for United Kingdom tax purposes. This summary is subject to any change in law or HMRC practice that may take effect after the date of this Base Prospectus.

Investors and prospective investors who may be liable to taxation in jurisdictions other than the United Kingdom in respect of their acquisition, holding or disposal (including a redemption) of ETP Securities should also consult their professional advisers as to whether they are so liable (and if so under the laws of which jurisdictions), since the following comments relate only to certain United Kingdom taxation aspects in respect of the ETP Securities. In particular, investors and prospective investors should be aware that they may be liable to taxation under the laws of the United Kingdom and other jurisdictions in relation to payments in respect of the ETP Securities even if such payments may be made without withholding or deduction for or on account of taxation under the laws of the United Kingdom.

Withholding tax

The Issuer may make payments in respect of any Series of ETP Securities, which fall to be treated as payments of interest for UK income tax purposes without deduction or withholding for or on account of United Kingdom tax where such payments do not have a "UK source".

If payments, which are treated as payments of interest for UK income tax purposes, have a "UK source", such payments made by the Issuer in respect of any Series of ETP Securities may nevertheless be made without deduction or withholding for or on account of United Kingdom tax if and for so long as that Series is listed on a "recognised stock exchange" within the meaning of section 1005 of the Income Tax Act 2007 ("ITA 2007"). The London Stock Exchange is, amongst other stock exchanges, a recognised stock exchange for these purposes and, therefore, payments of interest in respect of ETP Securities may be

made without withholding or deduction for or on account of United Kingdom tax if, and for so long as, such ETP Securities are listed on the London Stock Exchange or any other recognised stock exchange.

Payments of interest under any Series of ETP Securities may have a “UK source” depending on circumstances such as the nature and location of the Posted Collateral and other circumstances.

If a Series of ETP Securities ceases to be listed on the London stock exchange, or other recognised stock exchange, any payments of interest made on such series that have a UK source will generally be paid by the Issuer under deduction of income tax at the basic rate (currently 20 per cent) unless another relief applies under UK domestic legislation or the Issuer has received a direction to the contrary from HM Revenue & Customs in respect of such relief as may be available pursuant to the provisions of any applicable double tax treaty.

Tax treatment of investors in ETP Securities

The UK tax treatment of the ETP Securities is uncertain. No discussions have taken place with HMRC regarding whether any gains arising to UK Individuals or investors within the charge to corporation tax should be treated as being of an income or capital nature for UK tax purposes. Various Series of ETP Securities have been registered with HMRC as “reporting offshore funds” under the Offshore Funds (Tax) Regulations 2009 (SI 2009/3001). Even if the Issuer were to satisfy the reporting offshore fund conditions for such Series of ETP Securities, if the gains on a Series of ETP Securities would be treated as being of an income nature for UK income tax and/or UK corporation tax purposes were the offshore fund legislation not to apply, the fact that the particular Series of ETP Securities is registered as an offshore reporting fund would not prevent any gains arising on such Series of ETP Securities from being taxable as income gains.

UK Individuals are advised to seek advice from their tax advisors as to whether any gains realised on ETP Securities would be treated as income or capital gains for UK tax purposes. If any gains are treated as being income gains it is unlikely that relief would be available for any losses.

Investors within the charge to UK corporation tax are advised to seek advice from their tax advisors on the basis on which any profits or losses arising on the ETP Securities will be recognised in computing their profits chargeable to corporation tax.

THE TAX TREATMENT OF ANY SERIES OF ETP SECURITIES MAY BE AFFECTED BY THE TERMS OF ISSUE OF THAT SERIES OF ETP SECURITIES AS SPECIFIED IN THE RELEVANT FINAL TERMS AND WILL DEPEND ON THE CLASSIFICATION OF THAT SERIES OF ETP SECURITIES FOR TAX PURPOSES AND THE INVESTOR’S OWN CIRCUMSTANCES. INVESTORS AND PROSPECTIVE INVESTORS SHOULD CONSULT APPROPRIATE TAX ADVISERS CONCERNING THE TAX CONSEQUENCES OF THE SPECIFIC SERIES IN QUESTION AND THEIR PARTICULAR SITUATION BEFORE INVESTING IN THE ETP SECURITIES.

SUBSCRIPTION AND SALE

Only Authorised Participants may subscribe for ETP Securities from the Issuer. The Authorised Participant(s) in respect of each Series of ETP Securities at the Issue Date of such Series will be specified in the relevant Final Terms.

Securities may be offered to any category of potential investors provided that the offer complies with the selling restrictions set out below in this "Subscription and Sale" section (the "**Selling Restrictions**").

United States

The ETP Securities have not been and will not be registered under the Securities Act or under the securities law of any state or political sub-division of the United States of America or any of its territories, possessions or other areas subject to its jurisdiction including the Commonwealth of Puerto Rico (collectively, the "**United States**"). No person has registered nor will register as a commodity pool operator of the Issuer under the CEA and the CFTC Rules of the CFTC, and the Issuer has not been and will not be registered under any United States federal laws. The ETP Securities are being offered and sold in reliance on an exemption from the registration requirements of the Securities Act pursuant to Regulation S thereunder ("**Regulation S**").

Accordingly, the ETP Securities may not at any time be offered, sold or otherwise transferred except (i) in an "Offshore Transaction" (as such term is defined under Regulation S) and (ii) to or for the account or benefit of a Permitted Transferee.

A "**Permitted Transferee**" means any person who is not any of:

- (a) a U.S. person as defined in Rule 902(k)(1) of Regulation S;
- (b) a person who comes within any definition of U.S. person for the purposes of the CEA or any CFTC Rule, guidance or order proposed or issued under the CEA (for the avoidance of doubt, any person who is not a "Non-United States person" as such term is defined under CFTC Rule 4.7(a)(1)(iv), but excluding, for purposes of subsection (D) thereof, the exception to the extent that it would apply to persons who are not "Non-United States persons", shall be considered a U.S. person); or
- (c) a "resident of the United States" for purposes of, and as defined in implementing regulations proposed or issued under, Section 13 of the Bank Holding Company Act of 1956, as amended ("**BHC Act**").

Transfers of ETP Securities within the United States or to any person other than a Permitted Transferee (a "**Non-Permitted Transferee**") are prohibited.

The foregoing restrictions on the offer, sale or other transfer of ETP Securities to a Non-Permitted Transferee may adversely affect the ability of an investor in the ETP Securities to dispose of the ETP Securities in the secondary market, if any, and significantly reduce the liquidity of the ETP Securities. As a result, the value of the ETP Securities may be materially adversely affected.

As defined in Rule 902(k)(1) of Regulation S, "U.S. person" means:

- (a) Any natural person resident in the United States;
- (a) Any partnership or corporation organized or incorporated under the laws of the United States;
- (b) Any estate of which any executor or administrator is a U.S. person;
- (c) Any trust of which any trustee is a U.S. person;
- (d) Any agency or branch of a foreign entity located in the United States;

- (e) Any non-discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary for the benefit or account of a U.S. person;
- (f) Any discretionary account or similar account (other than an estate or trust) held by a dealer or other fiduciary organized, incorporated, or (if an individual) resident in the United States; and
- (g) Any partnership or corporation if:
 - (i) organized or incorporated under the laws of any foreign jurisdiction; and
 - (ii) formed by a U.S. person principally for the purpose of investing in securities not registered under the Securities Act, unless it is organized or incorporated, and owned, by accredited investors (as defined in §230.501(a) of the Code of Federal Regulations, Title 17) who are not natural persons, estates or trusts.

As defined in CFTC Rule 4.7, “Non-United States person” means:

- (a) A natural person who is not a resident of the United States;
- (b) A partnership, corporation or other entity, other than an entity organized principally for passive investment, organized under the laws of a foreign jurisdiction and which has its principal place of business in a foreign jurisdiction;
- (c) An estate or trust, the income of which is not subject to United States income tax regardless of source;
- (d) An entity organized principally for passive investment such as a pool, investment company or other similar entity; provided, that units of participation in the entity held by persons who do not qualify as Non-United States persons represent in the aggregate less than 10% of the beneficial interest in the entity, and that such entity was not formed principally for the purpose of facilitating investment by persons who do not qualify as Non-United States persons in a pool with respect to which the operator is exempt from certain requirements of part 4 of the Commodity Futures Trading Commission’s regulations by virtue of its participants being Non-United States persons; and
- (e) A pension plan for the employees, officers or principals of an entity organized and with its principal place of business outside the United States.

As modified in the definition of “Permitted Transferee” above, the definition of “Non-United States person” excludes for purposes of sub-section (d) above, the exception in the proviso to the extent that it would apply to persons who are not “Non-United States persons”.

As defined in CFTR Rule 23.160 regarding cross-border application of certain swap provisions of the CEA (17 CFR § 23.160), “U.S. person” means:

- (a) A natural person who is a resident of the United States;
- (b) An estate of a decedent who was a resident of the United States at the time of death;
- (c) A corporation, partnership, limited liability company, business or other trust, association, joint-stock company, fund, or any form of entity similar to any of the foregoing, in each case:
 - (i) that is organized or incorporated under the laws of the United States; or
 - (ii) that has its principal place of business in the United States, including any branch of such legal entity (a “legal entity”);
- (d) A pension plan for the employees, officers, or principals of a legal entity, unless the pension plan is primarily for foreign employees of such entity;

- (e) A trust governed by the laws of a state or other jurisdiction in the United States, if a court within the United States is able to exercise primary supervision over the administration of the trust;
- (f) A legal entity (other than a limited liability company, limited liability partnership or similar entity where all of the owners of the entity have limited liability) that is owned by a U.S. person and for which such person(s) bears unlimited responsibility for the obligations and liabilities of the legal entity, including any branch of the legal entity; or
- (g) An individual account or joint account (discretionary or not) where the beneficial owner (or one of the beneficial owners in the case of a joint account) is a U.S. person.

As defined in the final regulations issued under Section 13 of the BHC Act, 17 CFR 225.10(d)(8), “resident of the United States” means a “U.S. person” as defined in Regulation S.

The term “U.S. person” as defined in CFTC Rule 23.160 and as set forth above is accurate as of the date of this Base Prospectus. However, on January 8, 2020, the CFTC released a newly proposed rule (85 Fed. Reg. 952 (Jan. 8, 2020)) regarding cross-border application of certain swap provisions of the CEA. The proposed rule includes an amended definition of “U.S. person” intended to harmonize the CFTC definition with that set forth by the SEC (as defined below) in relation to its own cross-border rules. As such, the definition of U.S. person as set forth above may be subject to change upon the issuance of any final rule based on this newly proposed rule. Each person who offers, sells or otherwise transfers ETP Securities has exclusive responsibility for ensuring that its offer, sale or other transfer is not to or for the account or benefit of any person other than a Permitted Transferee as such term is defined as of the date of such offer, sale, pledge or other transfer.

The ETP Securities have not been approved or disapproved by the United States Securities and Exchange Commission (“**SEC**”) or any other regulatory agency in the United States, nor has the SEC or any other regulatory agency in the United States passed upon the accuracy or adequacy of this document or the merits of the ETP Securities. Any representation to the contrary is a criminal offence. Furthermore, the ETP Securities do not constitute, and have not been marketed as, contracts for the sale of a commodity for future delivery (or options thereon) subject to the CEA, and neither trading in the ETP Securities nor this document has been approved by the CFTC under the CEA, and no person other than a Permitted Transferee may at any time trade or maintain a position in the ETP Securities.

Each Authorised Participant represents and agrees in the relevant Authorised Participant Agreement that it has complied and will comply with the aforementioned transfer and selling restrictions and it will have sent to each dealer to which it sells ETP Securities a confirmation or other notice setting forth the above restrictions on offers and sales of the ETP Securities. Each Authorised Participant has further represented and agreed that it has not offered, sold or delivered and will not at any time offer, sell or deliver the ETP Securities of any identifiable Tranche except in accordance with Rule 903 of Regulation S, and that none of it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to such ETP Securities, and it and they have complied and will comply with the offering restrictions requirement of Regulation S. Terms used in this paragraph have the meanings given to them by Regulation S.

Annex – Issue Specific Summary

[Issue specific summary to be inserted]

GENERAL INFORMATION

- 1 The Issuer has obtained all necessary consents, approvals and authorisations (if any) which are necessary in Ireland at the date of the Base Prospectus in connection with the update of the Programme. The update of the Programme was authorised by a resolution of the board of directors of the Issuer passed on 8 January 2024.
- 2 There has been no significant change in the financial position or financial performance of the Issuer and no material adverse change in the financial position or prospects of the Issuer, in each case, since 30 June 2023.
- 3 There are no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware), since the date of its incorporation, which may have, or have had in the recent past, significant effects on the Issuer's financial position or profitability.
- 4 The ETP Securities represent indebtedness of the Issuer. ETP Securities may be accepted for clearance through any Clearing System including Euroclear and Clearstream, Luxembourg and Clearstream Banking, Frankfurt (which are the entities in charge of keeping the records). ETP Securities will be cleared through the Relevant Clearing System in whole numbers of ETP Securities only (for these purposes an ETP Security may be referred to as a unit by the relevant Clearing System).

The Common Code and the International Securities Identification Number (ISIN) and (where applicable) the CUSIP and CINS number and PORTAL system and identification number for each Series of ETP Securities will be set out in the relevant Final Terms.

The address of Euroclear is 1 Boulevard du Roi Albert II, B-1210 Brussels, Belgium.

The address of Clearstream, Luxembourg is 42 Avenue JF Kennedy L-1855 Luxembourg.

The address of Clearstream Banking, Frankfurt is Mergenthalerallee 61, 65760 Eschborn, Germany.

The address for SIX SIS AG is Brandschenkestrasse 47, CH-8022 Zurich.

The address of any other Clearing System that is a Relevant Clearing System for a Series of ETP Securities will be specified in the relevant Final Terms.

- 5 The Issue Price of, and the number of ETP Securities comprising, each Tranche of ETP Securities will be determined before filing of the relevant Final Terms. Save as otherwise provided in Condition 9 (*Disruption Events, Adjustments and Postponement*) the Issuer will provide post-issuance information in relation to the underlying collateral, as well as the Value per ETP Security of the ETP Securities in respect of each Scheduled Valuation Day by no later than 10:00 London time on the immediately following Scheduled Valuation Day on the website maintained on behalf of the Issuer at <https://granitshares.com/europe/etps> (or such other website as may be notified to Securityholders in accordance with Condition 20 (*Notices*)).
- 6 For so long as ETP Securities may be issued pursuant to the Base Prospectus (in respect of paragraphs (i) to (ix)) and for so long as any listed ETP Securities remain outstanding, the current version of each of the documents specified below (together with all earlier versions of such documents to the extent that there are ETP Securities of any Series outstanding in respect of which the version in question of such document is still relevant) will be available on the website of the Issuer (<https://granitshares.com/europe/etps>) and in physical format during usual business hours on any weekday (Saturdays, Sundays and public holidays excepted), for inspection at the registered office of the Issuer and at the specified office of the Issuing and Paying Agent:
 - (i) the Master Trust Terms;
 - (ii) the Memorandum and Articles of Association of the Issuer;
 - (iii) a copy of this Base Prospectus together with any supplement hereto;

- (iv) all documents incorporated by reference into this Base Prospectus; and
 - (v) all reports, letters and other documents, historical financial information, valuations and statements prepared by any expert at the Issuer's request any part of which is included in the Base Prospectus.
- 7** This Base Prospectus will be published on the website of the Issuer (<https://graniteshares.com/europe/etps>).
- 8** Where the Final Terms indicate that a Series of ETP Securities is "Intended to be held in a manner which would allow Eurosystem eligibility", such designation simply means that the ETP Securities are intended upon issue to be deposited with one of the ICSDs as common safekeeper and does not necessarily mean that the ETP Securities will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon the ECB being satisfied of Eurosystem eligibility.
- 9** The Legal Entity Identifier (LEI) of the Issuer is 635400MFOIY6BX1JUC92.
