

PRODUCT DESCRIPTION

GraniteShares FATANG ETP is a collateralized, Exchange-Traded Product (ETP). The ETP tracks, excluding fees and other adjustments, the performance of the Solactive FATANG Equal Weight Index NTR (the Index). The Solactive FATANG Equal Weight Index NTR provides exposure to Meta Platforms Inc, Alphabet, Amazon, Apple, Tesla Inc, Netflix Inc with each component equally weighted after each quarterly rebalancing.

UNDERLYING BASKET & WEIGHT

KEY FEATURES

- Simple to trade: exposure to the US largest tech companies in one trade
- Liquid, trades like an equity on an exchange with market makers supporting intraday liquidity
- Collateralized
- No need to complete a W-8EBEN form

KEY RISKS

- The exposure is highly concentrated. Less diversified equity indices are generally more volatile than more diversified indices
- In the event a swap counterparty defaults, the proceeds from the realisation of the collateral may be less than what the investor expects
- Please see the risks factors section of the Prospectus for a more detailed discussion of the potential risks

PRODUCT OVERVIEW

Product Name	GraniteShares FATANG ETP
Index Tracked	Solactive FATANG Equal Weight Index NTR
Leverage Factor	No Leverage
Base Currency	USD
Structure	ETP

DISCLAIMER

General Notice

GraniteShares Limited ("GraniteShares") (FRN: 798443) is an appointed representative of Messels Limited which is authorised and regulated by the Financial Conduct Authority.

This document does not constitute an offer to buy or sell or a solicitation of an offer to buy securities in any company. This document is not intended for distribution to any other country where such distribution or use would be contrary to local law or regulation. Specifically, this document is not intended for general distribution in the United States or Canada.

Investing in financial markets involves a substantial degree of risk. Nothing described herein is intended to imply that an investment is "safe", "conservative", "risk free" or "risk averse". This document does not consider the specific investment objective, financial situation or particular needs of any potential investor and is intended only for those investors who are capable of understanding the risk of loss of all or a substantial part of their monies. Potential investors in the UK are reminded that they will not benefit from the UK investors compensation scheme.

Nothing contained herein constitutes investment, legal, tax or other advice nor is to be relied upon in making an investment or other decision. No recommendation is made positive or otherwise, regarding individual securities or investments mentioned herein. Any summary list of risk factors does not purport to be a complete enumeration or explanation of the risks involved in an investment in short and leveraged products. Prospective investors must consult with their own legal, tax and financial advisers before deciding to invest.

This document contains the opinions of the author and such opinions are subject to change without notice. The source of data is GraniteShares unless otherwise stated. No guarantee is made to the accuracy of the information provided which has been obtained from sources believed to be reliable. This document and the information contained herein is intended only for the use of persons (or entities they represent) to whom it has been provided.

Risk Factors

An investment in a GraniteShares short and leveraged exchange traded product ("ETP") may not be suitable for all investors. They are intended for investors who wish to take a very short term view on the underlying asset and are not intended as buy and hold investments.

Performance and capital loss: Past performance is not a reliable indicator of future results. The value of an investment may go down as well as up and can result in losses, up to and including a total loss of the amount initially invested.

Generic risks: Investments in ETPs involve numerous risks including, among others, company risks, general market risks, credit risks, foreign exchange risks, interest rate risks, geopolitical risks and liquidity risks.

Specific product risks: The Index is constructed to track the performance of an increased (leveraged) and/or short exposure to the underlying asset. A fall (or rise where short and leveraged exposure) in value of the underlying asset can result in a greater reduction in the level of the Index. The Index is designed to do this on a daily basis only which should not be equated with seeking a leveraged position for periods longer than a day. The ETP's performance over periods longer than one day will not be correlated or symmetrical with the returns of the underlying asset. Potential investors should refer to the section entitled "Risk Factors" and "Economic Overview of the ETP Securities" in the Prospectus relating to the GraniteShares ETPs for further details of these and other risks associated with an investment in short and leveraged ETPs and consult their financial advisers as needed.

Counterparty risk: An investment in a GraniteShares short and leveraged ETP involves counterparty risk. GraniteShares Financial plc has entered into a Swap Agreement with a counterparty, Natixis, that is backed with collateral. Failure of the counterparty to make payments may result in an investment in an ETP suffering a loss.

Index Disclaimer

The Index is created, calculated and published by Solactive AG. No financial instrument is sponsored, promoted, sold or supported in any other manner by Solactive AG nor does Solactive AG offer any express or implicit guarantee or assurance either with regard to the results of using the Index and/or Index trade mark or the Index level at any time or in any other respect.
